

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 5
77 WEST JACKSON BOULEVARD
CHICAGO, IL 60604-3590

MAY 14 2014

REPLY TO THE ATTENTION OF: WW-16J

Bruno Pigott, Assistant Commissioner
Office of Water Quality
Indiana Department of Environmental Management
Mail Code IGCN 1315
100 North Senate Avenue
Indianapolis, Indiana 46204-2251

Dear Mr. Pigott:

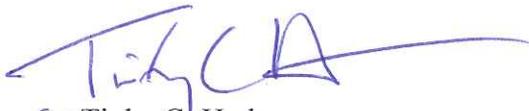

I am hereby transmitting to you the final list of waterbodies that the U.S. Environmental Protection Agency is adding to Indiana's 2010 list of water quality limited segments still requiring total maximum daily loads pursuant to the Clean Water Act, Section 303(d), and 40 C.F.R. § 130.7(d)(2). Enclosure 1 identifies the waterbodies and associated metal pollutants that EPA is adding to Indiana's 2010 list. All of these waterbody- metal pollutant combinations were previously identified in EPA's May 8, 2013 letter to the Indiana Department of Environmental Management (IDEM).

On May 8, 2013, EPA took action on Indiana's 2010 Section 303(d) list, approving the State's inclusion of waterbodies and associated pollutants that the State identified as requiring a Total Maximum Daily Load (TMDL), and disapproving the State's omission of waterbodies and associated metal pollutants that met federal listing requirements.

EPA provided public notice and solicited public comment on its proposed addition of waterbodies and associated metal pollutants for inclusion on Indiana's 2010 List. Enclosure 2 summarizes the comments received and EPA's responses. Additionally, a copy of the complete final EPA approved 2010 303(d) list for Indiana is also enclosed with this transmittal letter (Enclosure 3). This final list includes both the waterbody-pollutant combinations previously approved by EPA on May 8, 2013, and the waterbody-pollutant combinations added by EPA by today's action.

If you have any questions, please contact Mr. Peter Swenson, Chief, Watersheds and Wetlands Branch at 312-886-0236.

Sincerely,

Tinka G. Hyde
Director, Water Division
