SECTION D

ADDITIONAL INFORMATION

Why do we need this information?

This information will help IDEM to effectively manage the Environmental Stewardship Program.

What do you need to do?

Answer the questions as completely as possible.

1. In addition to ESP, please list environmental awards received or voluntary programs participated in during the past twelve months.
The site participates in GM Green, a program to partnership with Earth Force to educate young people. Two events were held in 2015 with a local school to monitor Kokomo Creek. The facility also has a project certified by the Wildlife Habitat Council.
2. Has your facility taken advantage of any ESP incentives? If so, please describe the implementation process and list additional benefits IDEM should consider.
Inspectors have called ahead allowing staff to ensure they are in the facility the day of the inspection.
3. If your facility was not registered to the ISO 14001 standard prior to becoming an ESP member, has ESP helped you to pursue registration? If so, how has ESP been instrumental in achieving registration?

SECTION E

ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

What do you need to do?

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email esp@idem.IN.gov.

Initiative #1

Category 1: <u>Waste</u> Indicator 1: <u>Hazardous/Non-Hazardous</u>	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2014	2015	
Actual quantity (per year)	1,570,141 lbs.	1,402,390 lbs.	\$300,000 (estimate)
Production unit (select one)	Earned Labor Hours X Production units Production lbs. Other -- specify (e.g. Gallons, length, etc.)		
Production Quantity	1,528,597	1,350,559	NA
Normalization factor (Current year production ÷ Baseline year production) 0.88			
Normalized quantity (Actual Current year quantity ÷ Normalizing factor) 1,593,625			

Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.

Operations were shutdown for several weeks in one portion of the facility. This led to a negative impact on the pounds/hours worked calculation as the area is a less waste intensive operation than the rest of the manufacturing areas of the facility.

Initiative #2

Category 2: _____ Indicator 2: _____	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year			
Actual quantity (per year)			
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units	Production lbs.
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production)			
Normalized quantity (Actual Current year quantity ÷ Normalizing factor)			
Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.			

Initiative #3

Category 3: _____ Indicator 3: _____	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year			
Actual quantity (per year)			
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units	Production lbs.
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production)			
Normalized quantity (Actual Current year quantity ÷ Normalizing factor)			
Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress.			

1. Briefly describe the *impacts or wastes* eliminated resulting from the environmental initiative(s). If multiple initiatives, please indicate which specifically.
Adhesive waste was reduced due to a process change to optimize use of the material in the original container. This resulted in less waste, less down-time in operations, and a savings in purchasing new material. Solder recovery units resulted in both less material to send off-site for reclamation and a savings in purchasing new material.

2. Are there other best management practices (BMPs) you can share correlating to your initiative(s)?

3. If the objectives and targets associated with the environmental improvement initiative(s) were not attained, please verify continued progress toward the environmental initiative(s). If multiple initiatives, please indicate which specifically.

As noted above, adhesive waste was reduced due to a process change to optimize use of the material in the original container. This resulted in less waste, less down-time in operations, and a savings in purchasing new material.
Solder recovery units resulted in both less material to send off-site for reclamation and a savings in purchasing new material. The site plans to install more such units.

4. Please provide a narrative summary of progress made toward *qualitative, significant* EMS objectives and targets, if any.

5. Please list any state, U.S. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL).

6. Is your entity willing to share the environmental improvement initiative(s) and its best management practices (BMPs) at the ESP Annual Meeting and/or a Partners for Pollution Prevention quarterly meeting or conference? ☐ Yes ☒ No
