 Who headed the review (name and title)? John Smith, VP of Operations Kimball

8 When did your facility last conduct an internal or corporate environmental compliance audit? Do not include inspections or site visits by regulatory organizations.

SECTION D**ADDITIONAL INFORMATION****Why do we need this information?**

This information will help IDEM to effectively manage the Environmental Stewardship Program.

What do you need to do?

Answer the questions as completely as possible.

1 In addition to ESP, please list environmental awards received or voluntary programs participated in during the past twelve (12) months.

SECTION E**ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS****Why do we need this information?**

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period. IDEM needs to report cumulative program reduction results.

What do you need to do?

Reference Section F for "Category" and "Indicator" options to complete this section. Summarize your facility's progress on achieving the initiative you identified in the application or last year's APR. For assistance, please call (800) 988-7901 or email esp@idem.IN.gov.

Initiative #1

Category 1: <u>Reduce landfill impact</u> Indicator 1: <u>Increase Recycling Efficiency</u>	Baseline (indicate measurement unit)	Current (indicate measurement unit)	Cost Savings
Calendar year	2017	2018	
Actual quantity (per year)	68%	Increase average by 10%	
Production unit (select one)	Earned Labor Hours Other -- specify (e.g. Gallons, length, etc.)	Production units Production lbs. X	
Production Quantity			NA
Normalization factor (Current year production ÷ Baseline year production)			
Normalized quantity (Actual current year quantity - Actual baseline quantity) x Normalization factor			
Briefly describe how you achieved improvements for this environmental initiative or, if relevant, any circumstances that delayed progress. There were a lot of recyclable items going to the landfill rather than to the recycle center. Originally, the scope had just been to increase cardboard, but it was identified that other items were not being fully recycled, either, so the goal was expanded to include all recyclables as an efficiency to capture against what had previously been going to the landfill.
