# The business case for sustainability

# Our sustainability evolution

Site and  
business units  
were already  
going green

Vision Jam was  
a revelation

We needed  
coordination  
and  
communication

# Sustainability Strategy

## Engage

- Brand the foundation: Energy15, Water25, Waste40
- Advance projects that are visible to employee base
- Encourage and sponsor grass-roots initiatives
- Collaborate

## Grow

- Accelerate global initiatives
- Assess, track, communicate value
- Evaluate existing systems, metrics, and processes
- Establish governance, prioritization

## Sustain

- Drive supply-chain analysis, influence
- Incorporate sustainability as element of corporate strategy
- Drive sustainability into all phases of product development

Priority, Time

# Let's Talk...
