

Solid and Hazardous Waste Issues Pending or Future

Partners for Sustainability Meeting

Lori Freeman
*Office of Land Quality
Compliance Branch
December 11, 2024*

Issues

- EPA GIR Technical Corrections
- PFOS
- Contained-in Determinations
- Episodic Generation Events
- Identifying and Marking Hazards

Technical Corrections

- The EPA has completed a number of technical corrections addressing issues with the GIR and the Definition of Solid Waste.
- IDEM has not yet adopted the technical corrections.

PFOS

- It appears that the EPA is planning to try to make PFOS a hazardous waste.
- It has not happened yet.
- Most likely a listed hazardous waste if it happens.
- No details.

Episodic Generation of Hazardous Waste

- No changes to the policy.
- Notify within time limits of planned and unplanned events.
- No extensions.

Marking Hazards on Containers and/or Tanks

- If there are multiple hazards, then you must mark each hazard...
- Class 9 Placard is not sufficient
