Drinking Water K-2 Grade

Hi there, I'm Splash and did you know that I'm the only substance found on Earth naturally in three forms: liquid, gas, solid.

Let's start with who I am: As a drop of water I can be found in all kinds of places. You can find me in the clouds, oceans, plants, animals, glaciers, even in your home. The water we have on Earth today is the same water we had on Earth 100's of years ago and it will be the same water we have on Earth in 100 years. So make sure you turn the water off when brushing your teeth and if you have a leak in your house or school make sure you tell an adult. Use water wisely!

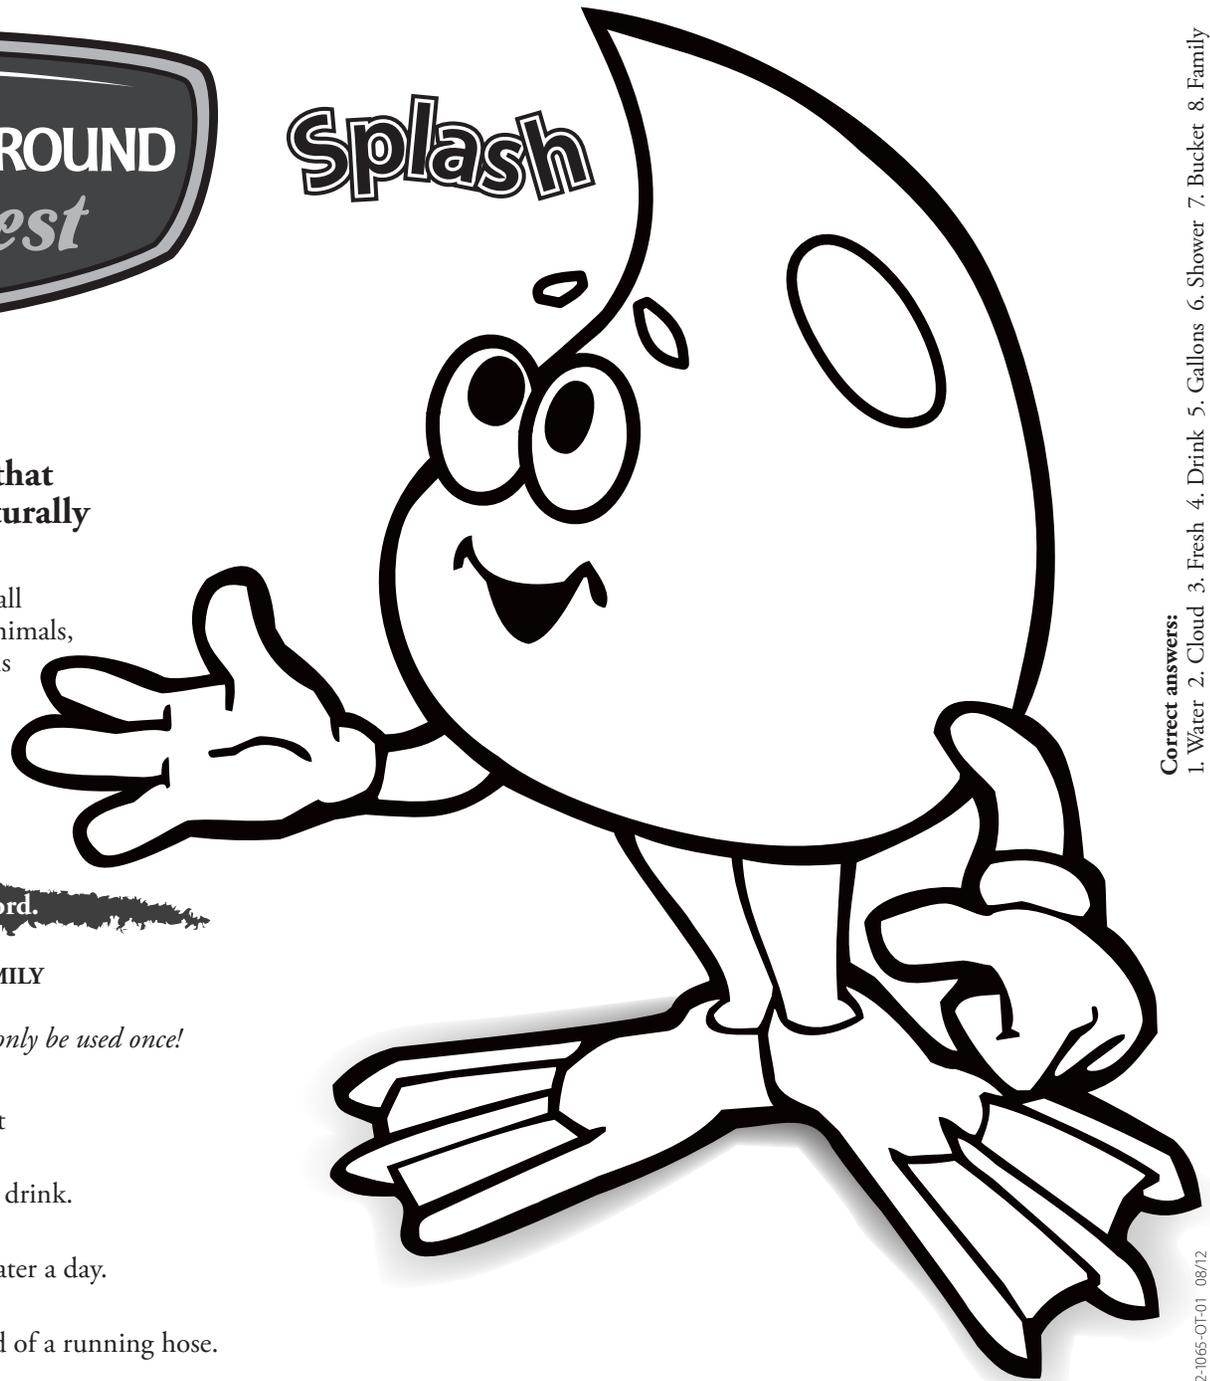

Fill in the following sentences with the correct word.

- DRINK BUCKET WATER FRESH FAMILY
- CLOUD GALLONS SHOWER

After using each word, put a check mark next to it. Each word will only be used once!

1. All living things need W___R to live.
2. When water evaporates, it travels into the air and becomes part of a C___D.
3. One percent of the F___H water on Earth is available to drink.
4. We D___K water in the liquid form.
5. Check for leaks and save hundreds of G___S of water a day.
6. You'll save water by taking a quick S___R.
7. Wash bikes and cars with a B___T and sponge instead of a running hose.
8. Ask your F___Y to look for ways to save water.

Splash

Correct answers:
1. Water 2. Cloud 3. Fresh 4. Drink 5. Gallons 6. Shower 7. Bucket 8. Family
