                                      9:08 o'clock a.m.
                                      July 27, 2023
 2
 3
                 CHAIRMAN WESSELER-HENRY:
                                            Welcome,
 4
    everyone. We're going to get started with the
 5
    meeting. Board members, have you had a chance to
    review the minutes for consideration and
 6
 7
    approval? And once someone's approved that,
8
    please feel free to throw a motion out there.
9
                 SEN. YODER:
                              The only thing is, I was
10
    here in person, and it says I was here in Zoom.
11
    That's the --
12
                 CHAIRMAN WESSELER-HENRY:
13
                 SEN. YODER: -- only other thing.
14
                 CHAIRMAN WESSELER-HENRY: I think
15
    that --
                              We'll get that changed.
16
                 MS. GARNER:
17
                 CHAIRMAN WESSELER-HENRY: Okay.
18
    there a motion, with the change of Rep. Yoder
19
    being present in person?
20
                 MR. LUTZ: I'll make a motion to
21
    accept the minutes, with the adjustment of
22
     Sen. Yoder being in person.
23
                 CHAIRMAN WESSELER-HENRY:
                                            Okay.
```

```
Motion by Mr. Lutz.
 2
            Second?
 3
                MS. WHITEHEAD: I'll second.
 4
                 CHAIRMAN WESSELER-HENRY: Okay.
 5
    Motion; okay. And we'll do a roll-call vote.
 6
            Ms. Hackman?
 7
                MS. HACKMAN: Yes.
8
                CHAIRMAN WESSELER-HENRY: Okay.
9
            Mr. Lutz?
10
                MR. LUTZ: Yes.
                 CHAIRMAN WESSELER-HENRY: Okay.
11
12
            Guerin?
13
                MR. GUERIN: Yes.
14
                 CHAIRMAN WESSELER-HENRY: Okay.
15
            Nunan?
16
                MR. NUNAN: Yes.
17
                 CHAIRMAN WESSELER-HENRY: Okay.
18
                MS. WHITEHEAD: Yes.
                 CHAIRMAN WESSELER-HENRY: Okay.
19
20
            And then Kelly Weger?
21
                 MS. WEGER: Yes.
22
                 CHAIRMAN WESSELER-HENRY: Okay.
23
            And Matt Gratz?
```

1 (No response.) 2 CHAIRMAN WESSELER-HENRY: Matt Gratz? 3 MR. GRATZ: Yes. 4 CHAIRMAN WESSELER-HENRY: Okay. 5 Thank you. 6 Okay. Motion has been approved and 7 carried to accept the minutes. 8 Okay. IDEM Update. It looks like we have 9 on screen --10 MS. GARNER: Yes. 11 MR. WODRICH: Can you guys hear me? 12 CHAIRMAN WESSELER-HENRY: Yes, we 13 can. 14 MR. WODRICH: Okay. Good morning, 15 everybody. Sorry I can't be there in person this 16 morning. 17 Yeah, just a few updates from IDEM's 18 perspective. First, we do have a new IDEM Staff 19 Training and Development Director that has been 20 added to our staff. Her name is Amanda Hall, and 21 she reports directly to our Chief of Staff 22 Parvonay Stover. I have met her a couple of 23 times and had some really good conversations. Ι

know Pat Daniel has already met with her, and most of our other managers in our Office of Program Support.

2.0

Really excited to have her on staff. I think she's going to bring a lot of great staff development opportunities and leadership development opportunities for our staff at the agency that has not been in place before. So, she comes with a wealth of knowledge and experience and leadership training with -- through State Department of Corrections, through the Federal Government Corrections, and several other places as well, so really, excited to have her on board.

So, we also are going to have a presence out at the State Fair this year. We haven't had that since pre-COVID, so we're really excited about that. Pat Daniel, Jessica Irvine, Jennifer Helrigel in our office have done a lot of the heavy lifting on that, and we have a lot of volunteers from our staff across the agency that are going to be manning that booth.

Every day that the fair is open, we will

be inside the DNR's building, so we'll be in the air conditioning, which is good, especially given this weekend. So, yeah, we will have a -- we'll be doing the Cahoots game that kids really seemed to enjoy when we did that last time at the State Fair, so excited to be back out and getting in front of all of those folks that come through the DNR building every day at the State Fair.

Governor's Awards for Environmental

Excellence, our -- we have a new staff person

working on that, Caitlin Carroll, she started in

May, the very end of May, and she is off and

running with picking that up and getting it

across the finish line, so to speak.

She's got Review Committee meetings set up, and we are hoping that the Commissioner will make a decision next month on those, and those, as you probably recall, are presented at the Partners for Pollution Prevention Annual Conference in September, which will be on September 20th this year, again, at the Marriott on the north side of Indianapolis.

And as a reminder to you all, if you are

interested in attending that conference, registration is open, and Pat and Deanna have informed me, and I wasn't aware of this, but they wanted me to also remind you all that, you know, if you wanted to attend that, RMDP could pay for your registration and, you know, daily travel expenses related to that. So, just a reminder on reimbursement, that you guys can take advantage of it as Recycling Market Development Board members.

2.0

We also have an e-waste collection event that will be happening this Saturday morning in Sullivan County, at the Sullivan High School, from 9:00 a.m. to 12:00 p.m. We're going to have about a dozen -- ten or a dozen IDEM staffers volunteering to help with that effort, and we have ERI as our contractor that will be collecting all of the electronics to be recycled.

And they're also going to have about -- I think 12 to 16 staff people there, which is really great, because, as you may recall, the one we did in Seymour last fall, in November, had a huge turnout. We recycled a lot of electronics

1 down there, so we're hoping to have a similar 2 turnout for this event as well. 3 Recycling Roundtable is scheduled for 4 August 30th from 2:00 to 3:30. Deanna might have 5 some additional details on that. 6 And I think my last update is that there 7 were some changes to the Board. The Legislative Council met recently and had a change from 8 9 Rep. Schaibley, who is being replaced by 10 Rep. Lori Goss-Reaves. 11 So, I think I hit all of my updates, and I 12 will turn it over to Deanna. I think she has an 13 update on the solid waste infrastructure and 14 recycling grant. 15 Thank you. Does anybody have any questions? 16 17 (No response.) 18 MS. GARNER: No questions? 19 CHAIRMAN WESSELER-HENRY: No? 2.0 (No response.) 21 CHAIRMAN WESSELER-HENRY: All right. 22 Thank you. 23 MR. WODRICH: Thanks.

MS. GARNER: Yeah. And just a couple of notes on Carl's updates. Yeah, the next Recycling Roundtable discussion announcement should be out next week, and we're focusing on successful compost operations and organic collections for the next one.

2.0

The -- and we hope to -- I did send out a notice to Rep. Lori Goss-Reaves and welcoming her to the Board. It's summer. Sometimes it's hard to get a response back, so I haven't got a response back, but we hope to get her oriented and attending the next meeting.

MS. DANIEL: Ms. Deanna?

MS. GARNER: Yes.

MS. DANIEL: Make sure -- we need to get a letter to Schaibley for folks to sign from the Board, thanking her for her --

MS. GARNER: Yes, yes, I wanted to do that as well, so we'll definitely thank

Rep. Schaibley for the many years that she was on the Board, and her interest and participation was always appreciated.

The next item is the EPA SWIFR Grant,

that's Solid Waste Infrastructure for Recycling Grant. We did give an update last meeting that IDEM received five hundred seventy-two thousand dollars and sixty-five -- or not sixty-five cents. Let me start that again -- five hundred seventy-two thousand and sixty-five dollars to implement a state materials management plan.

The last solid waste plan that was done for Indiana was in 1990, so we are past due, and we're fortunate enough to have enough money there that after we are able to implement the state plan, we have pass-through dollars for local plans to be created that will have built off of a template or guidelines for the state plan, so solid waste management districts, municipalities, counties can apply for funding to do their own plans as well.

The time frame, we did submit the final work plan to IDEM at the end of May, and then we anticipate the grant period beginning in October. It's a three-year grant, so we anticipate roughly a year and a half for the statewide plan. We have to go through an RFP process to get a

contractor to do the plan, so that takes roughly six months at least, and then the second half of the grant will be then the pass-through and funding the local plans.

Do you guys have any questions on that? Yeah, Terry.

MR. GUERIN: Refresh my memory: Do counties have to have a solid waste management plan?

MS. GARNER: They do not. Well -so, with some caveats there. In the 1990 solid
waste plan that was created for the state, there
is a requirement, as solid waste management
districts were created, and I think this is also
in statute that they had to -- and you can also
tell me -- a plan at that time, and there was
very little on -- instruction on when it needed
to be updated or anything like that. So, some
solid waste districts' plans are still from that
first time period of when they were created.

There is some multicounty districts, solid waste districts, that have since separated and become their own county districts, and at that

1 time of becoming a district, they are also 2 required to have a plan. It's been kind of hard 3 to put teeth into that, though, and really make 4 sure that they have that plan as well, and with 5 little funding to make those, I think it's been a 6 challenge, too. 7 MR. GUERIN: I was just curious, 8 because I was talking to a county a couple of 9 weeks ago and asked for their solid waste 10 management plan, and they didn't have one. 11 MS. GARNER: I think that when we're 12 talking to solid waste districts, too, that as 13 new directors come on board and stuff, if they 14 haven't had a plan since that very first one --15 CHAIRMAN WESSELER-HENRY: They don't. -- they -- it's lost, 16 MS. GARNER: 17 so --18 MS. HACKMAN: We encourage districts 19 to have their own plan just because a plan is a 20 good idea, no matter what you're doing in life. 21 So, some of them do -- have updated their plans,

MS. GARNER: Yeah.

but it's voluntary.

1 MS. HACKMAN: So --2 CHAIRMAN WESSELER-HENRY: Any other 3 questions? 4 (No response.) 5 MS. GARNER: Back to me. 6 CHAIRMAN WESSELER-HENRY: Yeah, back 7 to you. You're the star, Deanna. 8 (Laughter.) 9 MS. GARNER: Next on our agenda is 10 just an update of existing grants. Fiscal 11 Year '22 grants, still have two closed, six that 12 had the one-year amendments. 13 I do have one grantee plus five that's 14 reached out to me that has greatly expanded the 15 scope of their projects. It's still the same 16 projects, but it's just a much bigger scope 17 and -- in addition to supply chain issues -- is 18 planning to come to our next Board meeting to ask 19 for a second extension. 20 He's going to have a lot -- and a lot of 21 work has been done on this one, so it's just 22 he -- I told him, I said, "The Board's been burnt 23 on seeing an extension where the work hasn't been

done, so, you know, come in and present and show that this project's going to get done with the additional time frame that you're asking for."

So, they will be here at the next Board meeting.

Fiscal Year '23, we already have Rumpke, who has submitted their paperwork for reimbursement and then they'll be closing out, and I've got an update from RecycleForce with their new building. They are behind schedule as well, but they do still hope to have their grant completed by the grant expiration, the one-year time frame.

And now we are going to be awarding Fiscal Year '24 proposals at the next Board meeting, so we did receive 23 applications, totaling 5.6 million dollars in requested funding, with a total project cost of over -- well, nearly fifteen million dollars. I've been doing the reviews.

Nineteen of those 23 are still eligible for -- after the initial review, and they are undergoing compliance checks currently. Those compliance checks, as well as our IDEM review,

will hopefully be shared with the Board at the beginning of September, with a scoring deadline of at the end of September, for the October Board meeting.

Those will be shared via Teams again. I still plan on using that platform. I know that we have had some problems with access. It is kind of a -- can be glitchy, people have been removed randomly.

MS. WHITEHEAD: You, too, Tara.

CHAIRMAN WESSELER-HENRY: No, no, I'm not, but we have an issue, too, across the road.

MS. GARNER: So, go in -- my recommendation is just go in early or go in now, please. Make sure that you have access to Teams, and let me know now if you don't. We can come up with, you know, e-mailing the things or whatnot, an alternative, if we don't get it figured out, but it sometimes does take a couple of weeks of troubleshooting.

With you, it's a couple of months.

MS. WHITEHEAD: Months.

(Laughter.)

1 CHAIRMAN WESSELER-HENRY: Months.

MS. GARNER: Months.

MS. WHITEHEAD: I'm finally back in.

MS. GARNER: And it was weird,
because, like in Sandy's case, she was there
listed as a member, and so, I didn't know what
else to do to get her access. They said it was
fine, and so, we were at a standstill and a
stall, and I looked again this week, and she
wasn't listed as a member anymore. So, it was a
matter of just adding her back in.

MS. WHITEHEAD: Magic.

MS. GARNER: Yeah.

(Laughter.)

MS. GARNER: And then I just did want to share that -- this is kind of an internal decision on the back end of the administration of the grants, but with a lot of the current supply-chain issues, time frames for grants that go through these Fiscal Year '24 grants, we are going to move probably to an 18-month grant agreement versus a 12-month.

CHAIRMAN WESSELER-HENRY: Yeah.

MS. GARNER: So -- and we did -- the received proposals were -- they give us time frames in those, and those are all 12-month time frames, because we did have that in the quidelines, but this will give us just that kind of flex so that we're not necessarily having to do so many amendments, because most of our amendments are usually for time extension. The last update is on -- going back to our last existing Fiscal Year '20 grant that we had 

last existing Fiscal Year '20 grant that we had with Growing Green. If you recall from our last meeting, Stephanie had asked to be here again today. I have talked to her, and she does have an update on the process. I included the letter in your Teams Board packet, as well as she sent us, regarding the progress, but I asked her to go ahead and speak with you guys today.

If you want to come to the front of the room --

MS. NUTTER: Oh, yeah.

MS. GARNER: -- Stephanie. Just -- we don't have a podium this time.

MS. NUTTER: Okay.

Well, I wanted to say, first, I wasn't looking forward to this, and -- but I thought it was necessary. I felt like the last time, the last Board meeting, I owe you guys an apology. I felt like I brought forward my thoughts on the vision and the direction to go with cash match, and I realized that I did so coming from a place with a project where we weren't able to meet our cash match, and so, I came in on a high horse that I didn't own, and I just owed you all an apology for that.

And so, this time I thought -- and I'm sorry. This time I thought I would come in more from a place of gratitude, and I wanted to let you know -- I thought maybe that would be a nice place to start, and I wanted to let you know we did come into this without a cash match. And the Board -- and some of you I don't recognize, some of you I do, and you were very -- you supported us in a time when we really needed that, and so, it's a great thanks that we owe you as well.

When -- so, I thought maybe I'd share just how this -- it's not quantifiable in terms of

cash, but it was nonetheless important to us. So, when you guys -- the day that you guys approved that award for us, before I even got to the car in the parking lot, I had the Board on the phone, and you could hear -- I'm surprised you guys couldn't hear them, just the excitement that somebody had taken a chance on the project, and we were so thankful.

And so, before I even got to Martinsville then, I don't think my car touched the pavement, and I went straight to Sen. Bray's office, and he wasn't there, so I told his dad, "We got this, we got it, we got it." And then I went and introduced ourselves, myself and our project and our board then, to the Chamber of Commerce President, and she loved it.

And so, the momentum that was -- that you guys gave us from accepting us was just incredible, an incredible push forward. And then from that meeting with the Chamber President, she said, "Oh, my gosh, we need to tell the community about this," and we were like, "Yes, absolutely." And so, we did, and that's kind of where we

spiraled into -- ended up in a little bit of an issue.

2.0

And so, one thing I would share from this experience is: When you have a project -- or if you guys get another project like this, or a big one, there's a couple of different ways that people can go to accomplish this. One of them is to go straight to the public and get their support first.

The second is the route we took, which, in hindsight, I don't know is the best. We thought that by getting all of our architectural drawings, all of the renderings done, we could show people what the vision was. And so, before we introduced it to our community, our local community, we had -- we had the renderings completed, the design for the facility completed, we had pictures to show what we were talking about.

And right before we got those, about two weeks before we got those, we, in conjunction with the President of the Chamber of Commerce, thought it was a great idea to give a

presentation locally. And so, we didn't quite have our pictures ready, and we gave the presentation, and it started a whirlwind of panic in Martinsville that it was going to be a garbage dump.

2.0

And I think, you know, we probably all have those aunts and uncles in our counties, at some facilities that might operate, and they're not -- you know, they don't look the best. And so, I think that's what our local community envisioned, and we didn't have the images. It was about two to three weeks before we had the actual images from the companies we were working with to do this for us. And so, a headwind started in front of us of that this was going to be a garbage dump, it was going to be an eyesore on the landscape, and we kind of hit that, and momentum just started kind of coming off.

So, if I had it to do over again, I think I would have waited until we had the renderings completed so that we could show the community members when we introduced the project to them what we were looking at.

Then there was a couple -- there were a couple of other things behind the scenes. There was an individual that was running for County Council, and this we had no idea, but they had already earmarked that property for a truck stop, and we didn't know that, and we got in their way. And so, they were kind of instrumental also in putting out there that we were going to be a garbage dump.

And I met with him individually, and I told him over and -- I said, "You guys, we're not -- here's what we've got." And he said, "Oh, I know. I know you're not going to be a dump, but they don't know it." And so -- and I said, "Well, would you say publicly that you know that we're not going to be a dump?" And he said "No," then he -- you know, he wanted to scare them.

And so, the citizens out there don't know that they rallied against an eco park with conservation space and a recycling facility and really neat technology for a truck stop. They still don't know that, that that's potentially on the horizon, but that's -- we'll let them deal

with that when it comes up.

All of that to say that when we hit those kinds of headwinds, we had to pivot our project, and the pivot that we took moved from a solid stream to an e-waste, and so, to -- you know the old saying about eating an elephant. We learned to kind of set our goals a little bit lower so that they were more attainable.

So, at the same time, a friend of ours reached out with a local organization, and he's a specialist in the e-waste field and we're very excited, and I think the next direction for us is to get an e-waste processing stream going in his facility that will help us generate income for Growing Greens so that we can move forward with where we see this project going in smaller increments.

However, that move and change towards
e-waste takes us out of the scope of the original
grant that we asked for. So, we're giving that
back, but we wanted to say that we're extremely
grateful to all of you for the hope and
positivity that you injected, you know, to really

keep us going. We wouldn't actually be where we are now had it not been for that.

So, even though we're not able to utilize the funding right now, we've got a good direction because you took a chance on us. So, we're very thankful. So, I -- yes. So, I owe you our gratitude, and we're looking forward to continuing and keeping you guys updated even though we're not -- you know, we won't be with you, but we'll keep you updated on our progress.

CHAIRMAN WESSELER-HENRY: Thank you.

MS. GARNER: So, just briefly -- I meant to give the background for the Board members that weren't part of the Board when we did award this. The original grant was for a Machinex PET Optical Sorter for -- our part was 249,175, and it was awarded back in October of 2019, with an executed date of March of 2020. So, that's just to give you the background so that you can see how the scope has changed over the time as well.

MR. GUERIN: I'm not quite sure how to say this, but the word "dump," the solid waste

industry for years has tried to educate the general public against using the word "dump," because "dump" has a different connotation as -- and especially with landfills -- than what it really is.

And so, we've always tried to use the words "sanitary landfill" or some other terminology, other than the word "dump." So, if you come through this again, you might try to figure some terminology to describe what you're trying to do that educates the public against the word "dump" as just the connotation.

MS. NUTTER: That's a great idea.

MS. HACKMAN: But maybe what she was describing, though, was a dump, it wasn't a sanitary landfill. People were visualizing --

MR. GUERIN: No, I'm just saying --

MS. HACKMAN: Yeah, but, you know, the people that thought that this was going to be a dump really thought it was going to be a pile of junk. They didn't -- they weren't thinking about a sanitary landfill.

MS. NUTTER: Yeah, even when we used

the term "recycling facility," I mean that's -that was the next step that all of our local
citizens made was "it's going to be a garbage
dump." And I -- we didn't know how they -- how
that connection was -- we didn't know the back
end that was going on, but we didn't know how
that connection was made between a recycling
facility and a garbage dump. We -- you know, we
were a bit blindsided by that.

2.0

in Connersville right now. We have a recycling facility coming to Connersville, and it is a hot topic. Everyone said, "It's going to be a dump," and a lot of it refers to the fire we had in Richmond, because we got that smoke coming down to us, and that is a hot topic right now because they're afraid it's going to turn into exactly what happened in Richmond.

And they're concerned about it, because it's going into an old Ford company place, and it's going to be sharing a place with a cabinet maker as well, but it's going to be a recycling facility just for plastics, and it is an uproar

right now in Connersville, where I live. It's a 2 huge uproar. 3 MS. NUTTER: You know, I -- I mean I 4 don't know if this -- we made a lot of 5 connections with the architectural designs of the 6 facility itself, and we're willing to share that 7 with anybody who's putting in a recycling facility, I mean neat technologies that are 8 9 inexpensive but currently not really being 10 utilized here in the U.S. 11 Solar glass is one of them. You know, 12 it's not just solar panels, but solar glass. We 13 made contact with a company -- you can put in --14 the windows of your facility can help offset your 15 operating costs. We've got the contacts of the 16 guys that designed the Disney -- well, there's 17 McDonald's and Disney that runs completely off of 18 solar glass. 19 So, if you guys have any recycling 20 facilities -- not garbage dumps, recycling 21 facilities --

(Laughter.)

MS. NUTTER: -- we'd be happy to

22

```
1
     share with them any of the information that we've
 2
    gotten, any of the contacts that we've made, and
 3
     it might help. Maybe don't say our name, but --
 4
                         (Laughter.)
 5
                 MS. NUTTER: -- it might help them in
 6
    their struggle, because it really is a real thing
 7
    when you try to establish a facility.
                                            It's like
    yeah, there's a public misconception.
8
9
                 CHAIRMAN WESSELER-HENRY: It's coming
10
    no matter what, so they don't have a choice to
11
    the matter. It's already been sold, it's already
12
    been taken care of.
13
                 MS. NUTTER: Yeah.
14
                 CHAIRMAN WESSELER-HENRY: Then they
15
    did the release of the announcement, so --
16
                 MS. GARNER: Yeah, there's been big
17
    press on that.
18
                 CHAIRMAN WESSELER-HENRY: Uh-huh,
19
    yeah.
20
                              Thank you guys.
                 MS. NUTTER:
21
                 MR. GUERIN:
                              Thank you.
22
                 MS. WHITEHEAD:
                                 Thank you.
23
                 MS. NUTTER: Have a good day.
```

```
1
                 CHAIRMAN WESSELER-HENRY: Thank you,
 2
     too.
 3
                 MS. NUTTER: Have a good rest of your
 4
    meeting.
 5
                 CHAIRMAN WESSELER-HENRY: Yes, Terry.
 6
                 MR. GUERIN: Is the facility you're
 7
    talking about in Connersville the old Ford --
8
                 CHAIRMAN WESSELER-HENRY: Uh-huh, it
9
    is.
10
                 MR. GUERIN: -- plant?
11
                 MS. WHITEHEAD: Ford Delco.
12
                 CHAIRMAN WESSELER-HENRY: Yep.
13
                 MR. GUERIN: And what are they
    planning on for that?
14
15
                 MS. GARNER: Nova Chemicals --
                 CHAIRMAN WESSELER-HENRY: Yeah.
16
17
                 MS. GARNER: -- is -- Novolex is --
18
                 CHAIRMAN WESSELER-HENRY: Yeah.
19
                 MS. GARNER: -- doing a plastic film.
20
                 CHAIRMAN WESSELER-HENRY: Yeah.
21
    think about 124 jobs will come into it, and then
22
    part of that -- because it's like -- there's 40
23
     acres under cover, under roof there, and then
```

```
1
    part of that, there's already a cabinet-making
 2
    facility there, so they're going to share the
 3
     space.
 4
                 MS. WHITEHEAD: My parents worked
 5
    there back in the '50's.
 6
                 CHAIRMAN WESSELER-HENRY: Oh, really?
 7
                 MS. WHITEHEAD: Yeah.
                 MR. GUERIN: My family did, too, and
8
9
     I --
10
                 CHAIRMAN WESSELER-HENRY: Our little
    Detroit area.
11
12
                 MS. WHITEHEAD: Yeah.
13
                        (Laughter.)
14
                 MR. GUERIN: I have the original
15
    badges of my dad from Rex. You can see the
16
     little Rex plants --
17
                 CHAIRMAN WESSELER-HENRY: Yep.
18
                 MR. GUERIN: -- all of the way
19
    through the Ford building, so --
20
                 CHAIRMAN WESSELER-HENRY: Oh, yeah.
21
                 MR. GUERIN: They've had a hard time
22
     finding the right fit for that building.
23
                 CHAIRMAN WESSELER-HENRY: We have had
```

```
a very hard time finding the right fit, yes.
 2
                 MS. WHITEHEAD: Is it Wayzata that is
 3
     still there, W a y z a t a --
 4
                 CHAIRMAN WESSELER-HENRY: Uh-huh.
 5
                 MS. WHITEHEAD: -- the cabinet
 6
    company?
 7
                 CHAIRMAN WESSELER-HENRY: Yeah, yeah,
    they're still there, and they will stay there.
8
9
                 MS. WHITEHEAD: Yeah.
10
                 MS. HACKMAN: Is it the same facility
11
    that Novolex has in North Vernon?
12
                 CHAIRMAN WESSELER-HENRY: That's what
13
    I'm comparing it to, yeah. So, I did some
14
    research to see about the company, yeah. Fine
15
    with me.
            Okay. Moving on with the agenda -- thank
16
17
    you, everyone, for your feedback -- let's move on
18
    to House Bill 1512. And do we have someone here,
19
    Deanna, to talk about that?
20
                 MS. GARNER: It does not look like we
21
    do.
22
                 CHAIRMAN WESSELER-HENRY: In your
23
    packets you should have seen the letter that was
```

submitted about the House Bill. I don't know if you had a chance to look that over. Thank you for putting that together, Deanna and Bruce, and then we should have someone to represent.

MS. GARNER: Yeah. So, in that letter, yeah, we asked those authors to kind of come. Our legal team didn't really want to provide that interpretation that the authors could provide, so that's why we went that route, and Bruce was, yeah, a very big help in sending that out.

But I believe -- and I don't know if he's able to respond, but that -- he did say that he thought someone was going to be able to speak on it, but I don't -- I don't see anybody on our Zoom or in the room, so we can kind of just keep speaking of it, and if someone wants to speak up, we can do it.

But in that letter, I wanted to make a note that -- so, you guys, the Board, at the last meeting had basically three questions for clarification: Who the applicant was; the time frame of the next round, second round; and then

the third was the --2 CHAIRMAN WESSELER-HENRY: Cash match? 3 MS. GARNER: -- cash or -- well, the 4 total amount, the total award amount. And the 5 first question about eligibility, I did also 6 print out a copy of the statute for you guys to 7 When I looked at it after the 2023 IC look at. Codes went out, they added a .05 with a 8 9 definition of "applicant," so it says 10 applicant -- it states: As used in this chapter, 11 "applicant" means a person or company from the 12 private sector. 13 So, that was laid out pretty clearly and 14 boldly for us, so the second round will be, 15 unless -- unless we see changes to this bill in the next legislative session, this will be 16 17 restricted to the private sector. 18 MR. GUERIN: Deanna? 19 MS. GARNER: Yes. 2.0 I did check with the MR. GUERIN: 21 industry lobbyist, and he was involved in 22 monitoring this all of the way through, and I

called him yesterday, and he did say the same

thing you just said, that it was clear, the intent in that statute was to restrict this to the private sector.

MS. GARNER: Which --

MR. GUERIN: So, that's clear.

MS. GARNER: Yeah, yeah.

So, the other question that we were kind of looking into was like the time frame, because at one point, it says one year from the first round of awards, which would mean February, right, of 2023 -- or 2024 for the next round, and then -- then it lays out that the -- July 1st is when IDEM will make the applications available, and they will accept -- it says very plainly in the Code that IDEM will accept applications through October of 2024, providing recommendations to the Board by December 1st.

CHAIRMAN WESSELER-HENRY: Uh-huh.

MS. GARNER: So, without further clarification, really that -- I think that those are the ones that are laid out in statute with specific dates. We can start working on guidelines and lay a little bit of the groundwork

1 starting next February, but I think we need to 2 stick to the time frame that's laid out, with the July, October, December for that, yeah. 3 4 MR. GUERIN: But we still don't know 5 whether the money left over from last time is 6 carried over. 7 MS. GARNER: And that's the final --MR. LUTZ: That's --8 9 MR. GUERIN: That's huge, yeah. 10 MS. GARNER: That's the final 11 clarification that we still don't have a good --12 MR. GUERIN: What --13 MS. GARNER: -- and then 14 ultimately -- I know the Board doesn't want to 15 hear this, probably, but it's up to you guys, I think. You're the ones that have to interpret 16 17 what is in State Statute and in Code, and carry 18 out what is there. 19 MR. GUERIN: I don't know if Bruce 20 can respond to this or not, but did Rep. Speedy 21 respond at all? I mean this is -- this is in his 22 ballpark. I mean they're the ones that did this,

and this is the second time this stuff's come out

of the legislature not clear. We had a problem last time because of the word "pilot project" --

MR. NUNAN: Uh-huh.

MR. GUERIN: -- you know, and now we get something from the legislature again that's not clear, and I think it's his responsibility to inform us as to how much money we actually have to work with.

MR. LUTZ: I would hate to go into this and assume we have more, and then we go after it and we go -- because it's -- this is a lot of money, and it's a lot of money to -- and it's a lot of time and effort behind the scenes to put these applications together and do these studies and put these programs together.

And I would hate to go into this thinking that we have more in the kitty or in the bank that is not there, and then we have to go back and say, "Oh, yeah. By the way, you don't get it," and then they had -- they started to do the wheels changing and the wheels going, and then it kind of -- something implodes that we didn't know. So, I would think that myself, as the

```
1
    Board, without knowing that we have -- the hope
 2
     is -- well, I'm probably going to go --
 3
    unfortunately fall to the lowest amount --
 4
                 MS. WHITEHEAD: Uh-huh.
 5
                 MR. LUTZ: -- right?
 6
                 MS. GARNER: Yes.
 7
                 MR. LUTZ: And unfortunately, if we
    do have more and we don't, you know, we could not
8
9
    be giving somebody that could really help the
10
    goals and the aspirations that, you know, we all
11
    want to see for the -- to meet the 50 percent
12
    goal of the state, so --
13
                 MR. BURROW:
                              Deanna?
14
                 MS. GARNER:
                              Yes.
15
                 MR. BURROW:
                              This is Bruce.
                 MS. GARNER: Hi, Bruce. We hear you.
16
17
                 CHAIRMAN WESSELER-HENRY:
                                           We hear
18
    you.
19
                 MR. BURROW: Okay. I just wanted to
20
    clarify.
               I'm sorry I was not able to go back and
21
     find the e-mails back from the legislative aides
22
     or whatnot, but I think it's imperative that we
23
     continue to try to get some type of definitive
```

answer from Rep. Speedy in this regard --1 2 MS. GARNER: Yes. 3 MR. BURROW: -- for both answers that 4 you outlined so eloquently in your letter that 5 you drafted. I do apologize to the Board for not 6 being able to obtain those answers. And I do 7 believe I was not delirious. I believe there was a commitment for someone to participate in our 8 9 meeting today, but they may have thought it was 10 at the Government Center. Who knows? I can't 11 make excuses. All I know is I know what I saw in 12 return e-mails that I received. 13 So -- but I think it's important that we 14 have a clear definition prior to moving forward 15 with any awards beyond what's available in the bill, and particularly when we consider that past 16 17 amount --18 MR. LUTZ: Uh-huh. 19 MR. BURROW: -- and we don't want to 20 give that away if we're not certain we have it 21 available. 22 CHAIRMAN WESSELER-HENRY: Thank you.

MR. BURROW:

Thank you.

I apologize

```
for not being there.
 2
                 CHAIRMAN WESSELER-HENRY:
 3
     apologies needed, Bruce. Thank you for your
 4
    diligence on this and all of your help.
 5
                 MS. GARNER:
                              Yeah. And so, the good
 6
    news is we have -- we do have time still to get
 7
    these questions answered. We can -- and speaking
8
    to what Bruce is saying, in getting an answer
9
    from Rep. Speedy, maybe we can try to see if
10
    he'll meet one on one, facilitate a meeting that
11
    way. I think he'll kind of --
12
                 CHAIRMAN WESSELER-HENRY: Again, I'm
13
    not like a lawyer or anything, but I do read that
14
    second page, it says, "The Indiana recycling
15
    market development board may do the
16
    following...use funds allocated but not used in a
17
    previous round of grants to award grants to
18
    applicants in a subsequent round."
19
                 MS. GARNER:
                              Right.
20
                 CHAIRMAN WESSELER-HENRY:
                                           So, if they
21
     say no, I question that statement in there --
22
                 MR. LUTZ:
                            Right.
23
                 CHAIRMAN WESSELER-HENRY: -- why it's
```

```
1
     in there.
 2
                 MS. HACKMAN: That seems clear to me.
 3
                 MS. GARNER: It's very contradictory
 4
    to the statement later that says up -- or no more
 5
    than --
 6
                 MS. WHITEHEAD: Yeah.
 7
                 MS. GARNER: -- two million.
8
                 MS. WHITEHEAD: Yeah, it also says
9
    that.
10
                MS. GARNER: Yeah.
11
                 REP. ERRINGTON: This is Sue.
12
                 MS. GARNER: Hi, Sue.
13
                 REP. ERRINGTON: This is Sue.
14
                 CHAIRMAN WESSELER-HENRY: Yeah.
15
                 REP. ERRINGTON: My colleague is
    Rep. Speedy. I'd be happy to reach out to him
16
17
    personally to see if we can get a better
18
    clarification than what we have now.
19
                 MS. GARNER: I think it's --
20
                 REP. ERRINGTON: And maybe ask him to
21
     speak with Bruce or --
22
                 MS. GARNER: Yeah.
23
                 REP. ERRINGTON: -- or with Deanna.
```

```
1
                 MS. GARNER: That would be perfect.
 2
    Yeah, we would really appreciate that.
 3
                 CHAIRMAN WESSELER-HENRY: A gentle
 4
    nudge.
 5
                 MR. GUERIN:
                              Thank you.
 6
                 MS. GARNER: So, with that being
 7
    said, yeah, the last part about House Bill 1512
    that I did want to establish today was it does
8
9
    ask the Board to create a cash match -- or set a
10
     cash match, and I think that would be -- this is
11
    a good meeting, since we have a little less on
12
    our agenda, to go ahead and have that discussion
13
    and determine what cash match we would like to
    see for the next round of Central Indiana waste
14
15
    diversion projects.
16
                 MS. HACKMAN: I like 50 percent.
17
                 MS. WHITEHEAD:
                                 That's what it
18
    usually is; right? I know CRGP grants are little
19
    bit less, but they're smaller.
20
                 MS. HACKMAN:
                              Uh-huh.
                                        I like for
21
    them to have some skin in the game.
                 MR. LUTZ: Uh-huh. I don't disagree
22
23
    with any of that comment. The only question is:
```

```
As a 50-percent match, is that going to lower the
 2
    playing field, lower the applicants? If somebody
 3
    goes after the full two million dollars, they
 4
    have to have two million dollars that they're
 5
    going to match up, which, in this industry, we
 6
    know it's not cheap to process, run and sort,
 7
    equipment, things of that nature, facilities,
    land. Yeah, that would be my only thing at a 50,
8
9
    half and half is -- we want to make sure we've
10
    got players that come to the -- that submit to --
11
     you know, for us to consider, too.
12
                              I quess, still thinking
                 MS. GARNER:
13
    through this, but you mentioned facilities and
14
     lands as part of the project.
15
                 MR. LUTZ: I could -- yeah, well, I'm
     just saying -- yeah.
16
17
                 MS. GARNER: Yeah, yeah, but --
18
                 MR. LUTZ: That's probably -- I don't
19
    think that --
20
                 MS. GARNER: We need to also make it
21
    clear that the 50-percent cash match is just cash
22
    match --
```

MR. LUTZ:

Cash.

1 MS. GARNER: -- you know, line item by line item, or if you wanted other -- I mean I 2 3 think it says in the statute, now that I am 4 talking out loud, that it's a cash match. 5 CHAIRMAN WESSELER-HENRY: It says 6 "cash," yeah. 7 MR. LUTZ: Yeah. MS. GARNER: That would be --8 9 CHAIRMAN WESSELER-HENRY: What's the 10 wishes of the Board? 11 MR. NUNAN: I think we move forward 12 with 50 percent. I mean I look at it, because I 13 know that from the ERI standpoint, the Board, 14 before I came on the Board, had given us money, 15 and we've matched. 16 MR. LUTZ: Yeah. 17 MR. NUNAN: And I know this is a 18 different -- you know, different round and a 19 different set of criteria, but I think it's 20 important that the local companies, whether big 21 or small, medium, whatever it is, they've got

to -- and Debbie put it -- a little skin in the

game from that standpoint of it's an investment,

22

but it's also -- the state's also making the investment. So --

MR. LUTZ: Uh-huh.

MR. NUNAN: -- I think 50 percent is a safe number, because it doesn't matter if you're the mom and pop that needs a hundred grand, you can come up with that other piece of it, or if it's a Republic or somewhere, or an ERI, saying, "Hey, we need a million," it depends on the size of your company. You should be able, if you're really wanting to expand, to have that money out there. So, I think the 50 percent is a safe number, and would say consistent, because the other ones are 50 percent, too; correct Deanna?

MS. GARNER: Correct.

MR. NUNAN: Okay. So, I mean that way, as a Board, we kind of set -- okay. These are the guidelines no matter what kind of grant we set up, 50 percent, 50 percent. It makes it easier for us to manage from that standpoint. And understand, that's just my feelings right now.

```
1
            Correct me if I'm wrong, Terry.
                 MR. GUERIN: No, I -- there's
 2
3
    consistency with the 50 percent.
 4
                 MR. NUNAN: Yeah.
 5
                 MR. GUERIN: So, I understand what
 6
    Craig is saying, but --
 7
                 CHAIRMAN WESSELER-HENRY: Do we need
    to make a motion on that Deanna? Probably.
8
9
                 MS. GARNER: (Nodded head yes.)
10
                 CHAIRMAN WESSELER-HENRY: Yeah.
11
                 MR. GUERIN: -- the bigger applicants
12
    are going to have the money.
13
                 MS. WHITEHEAD: Right, yeah.
14
                 CHAIRMAN WESSELER-HENRY: Does
15
     someone want to make a motion to 50 percent?
                 MR. NUNAN: I'd make a motion for
16
17
    the 50-percent match towards the grant.
18
                 MS. HACKMAN: Second.
19
                 CHAIRMAN WESSELER-HENRY: Okay.
    Roll-call vote.
20
21
            Ms. Hackman?
22
                 MS. HACKMAN: Yes.
23
                 CHAIRMAN WESSELER-HENRY: Lutz?
```

```
1
                 MR. LUTZ: Yes.
 2
                 CHAIRMAN WESSELER-HENRY: Okay.
 3
            Guerin?
 4
                 MR. GUERIN: Yes.
 5
                 CHAIRMAN WESSELER-HENRY: Mr. Nunan?
 6
                 MR. NUNAN: Yes.
 7
                 CHAIRMAN WESSELER-HENRY: Okay.
8
            Ms. Whitehead?
9
                MS. WHITEHEAD: Yes.
10
                 CHAIRMAN WESSELER-HENRY: And then we
11
    have Kelly Weger?
12
                 MS. WEGER: Yes.
13
                 CHAIRMAN WESSELER-HENRY: And then
14
    Gratz?
15
                MS. GARNER: He unmuted, but we
    didn't hear you, Matt.
16
17
                 CHAIRMAN WESSELER-HENRY: Matt, can
18
    you hear us?
19
                 MR. GUERIN: Coffee break.
20
                 MS. GARNER: He just unmuted himself,
21
    so that might be a connection problem.
22
                CHAIRMAN WESSELER-HENRY: Yeah.
23
    Okay. Well, the motion still --
```

1 MS. GARNER: We do -- yeah. 2 CHAIRMAN WESSELER-HENRY: -- yeah, 3 carried, so --4 MS. GARNER: It passes. 5 CHAIRMAN WESSELER-HENRY: Thank you, 6 everyone. 7 And remaining schedule, next on the agenda, 2023 schedule, next on October 26th. 8 9 That will be going over the applications, and 10 before we have any comments from the audience --11 MS. GARNER: I was going to --12 CHAIRMAN WESSELER-HENRY: -- anything 13 else? 14 MS. GARNER: Yeah. I was going to 15 mention that the next meeting, it's going to --16 be ready to be there the full time, probably, if 17 we have this full 19 grants to award, but we will 18 also have a representative from the Office of 19 Energy. There is a statute still in place from 20 when the Board was created that funding 21 opportunities or grants that the Office of Energy 22 wants to do has to get Board approval. So, 23 they'll be there to speak on that and get our

approval.

And then, as I mentioned, Plus Five will be here for their amendment request. So, we're going to have a full meeting just that next meeting, so I just wanted to bring that up. And let me know as soon as possible if you have conflicts and can't be there, because obviously that's the one we like to see everybody be able to attend.

CHAIRMAN WESSELER-HENRY: Yeah. I will probably be virtual. That's fall break week, and also, we're in the midst of harvest at that --

MS. GARNER: Okay.

CHAIRMAN WESSELER-HENRY: -- time, so I will try to be virtual the best I can.

MS. HACKMAN: A busy week.

MS. WEGER: Yeah, similar, Deanna -this is Kelly -- I've got a conference that's on
my calendar. I haven't posted anything yet, but
it's that entire week, so there might be a
conflict or, at the very least, I might be
virtual.

1 MS. GARNER: Yeah. 2 So, the rest of the Board, let me know, 3 and if we don't have a quorum, we can look into 4 another date right around there as well. So, 5 just keep me updated on that. 6 CHAIRMAN WESSELER-HENRY: 7 members, anything else you want to say? 8 Ms. Hackman? 9 MS. HACKMAN: I'm good. 10 CHAIRMAN WESSELER-HENRY: 11 MR. LUTZ: Just Bruce, prayers to you 12 for getting well and health, and get better. 13 CHAIRMAN WESSELER-HENRY: Listen to 14 your doctors. 15 (Laughter.) 16 CHAIRMAN WESSELER-HENRY: Mr. Guerin? 17 MR. BURROW: Thank you all very much. 18 MR. GUERIN: No, I'm fine. Thanks. 19 CHAIRMAN WESSELER-HENRY: Mr. Nunan? 20 MR. NUNAN: No, thank you. 21 CHAIRMAN WESSELER-HENRY: Kelly, do 22 you have anything to add? 23 MS. WEGER: No, just the same, Bruce,

```
1
    get better soon.
 2
                 CHAIRMAN WESSELER-HENRY: Mr. Gratz,
 3
    do you have any additions?
 4
                 MR. GRATZ: No. Sorry I lost you
 5
    guys earlier. I had a dead spot, but I have
 6
    nothing else to add.
 7
                 CHAIRMAN WESSELER-HENRY: Okay.
    Anyone else in the audience?
8
9
                       (No response.)
10
                 CHAIRMAN WESSELER-HENRY: I need a
11
    motion to adjourn.
12
                 MR. LUTZ: I make a motion to
13
    adjourn.
14
                 CHAIRMAN WESSELER-HENRY: Second?
15
                 MR. NUNAN: Second.
                 CHAIRMAN WESSELER-HENRY: All right.
16
17
            All those in favor?
18
             (Board members responded, "Aye.")
19
                 CHAIRMAN WESSELER-HENRY: Thanks,
20
    everyone. Thanks for joining us.
21
               Thereupon, the proceedings of
22
                July 27, 2023 were concluded
                    at 9:57 o'clock a.m.
23
```

### CERTIFICATE

I, Lindy L. Meyer, Jr., the undersigned Court Reporter and Notary Public residing in the City of Shelbyville, Shelby County, Indiana, do hereby certify that the foregoing is a true and correct transcript of the proceedings taken by me on Thursday, July 27, 2023 in this matter and transcribed by me.

Lindy L. Meyer Jr.

Lindy L. Meyer, Jr.,

Notary Public in and

for the State of Indiana.

My Commission expires August 26, 2024.
