

Hoosier Riverwatch Volunteer Stream Monitoring

2024 Training Workshops

A Hoosier Riverwatch Basic Training workshop introduces you to hands-on water quality monitoring methods. You will learn about aquatic habitat, chemical and biological assessment techniques. Sessions have indoor and outdoor portions. All interested persons, age 18 and over, are welcome to attend. Once trained, certified educators are qualified to teach these methods and topics to their students. Advanced workshops require basic training before attending.

Workshops are free of charge, but advanced registration is required. Please contact your instructor or host if you will not be able to attend the workshop that you have signed up for.
