

Hoosier Riverwatch Volunteer Stream Monitoring

A Hoosier Riverwatch Basic Training workshop will introduce you to hands-on water quality monitoring methods. You will learn about aquatic habitat, chemical and biological assessment techniques. Sessions are held both in- and out-of-doors. All interested persons age 18 and over are welcome to attend. Once trained, certified educators are qualified to teach these methods and topics to their students.

PLEASE NOTE that the scheduled workshops have ended for the 2018 season. Check back again with us around February or March to see what is being scheduled for early spring 2019. If interested in scheduling a workshop in your area next year/season, please use the Instructor Locator Map found online at http://www.in.gov/idem/riverwatch/files/facilitator_map.pdf to contact someone near you for assistance. Otherwise, feel free to contact us below.

Thank you for your interest. We look forward to having you with us in 2019!

Have a safe and wonderful winter!!!
