Conditional Sales Agreement

WITNESSETH THIS AGREEMENT dated May 9, 2013, by and between THE STATE OF INDIANA acting through the Indiana Department of Administration, (“Seller”) and ___________________________________________________________________________________, (“Buyer”).

In consideration of this Agreement, Seller and Buyer agree as follows:

1. Sale of Property. Seller agrees to sell to Buyer, and Buyer agrees to buy from Seller, the following property (collectively, “Property”):
   1.1 Property. The property commonly known as INDOT Code 4230 – 9, 5953 S. Meridian Rd, Hancock County, Indiana described on the attached Exhibit A (“Land”) together with all buildings, improvements and fixtures constructed or located on the Land (“Buildings”) and all easements of record and rights benefiting or appurtenant to the Land (collectively the “Property”), subject to all existing legal rights-of-way, easements, conditions and restrictions of record.
   1.2 Access. The subject parcel currently has limited public access or right of entry. The buyer will be responsible for gaining legal access to the property. Ingress/Egress permits may be submitted to the Department of Transportation and approved or denied at the agencies sole discretion. No assurance of such a permit is expressed or implied.
   1.3 Personal Property. No personal property is being sold or conveyed as a part of this Purchase Agreement.

2. Purchase Price, Buyer’s Premium, and Manner of Payment. The total purchase price (“Purchase Price”) to be paid for the Property shall be _______________ Dollars ($________________). The Purchase Price shall be payable as follows:
   2.1 In conjunction with execution of this Agreement (the “Execution Date”), Buyer shall submit _______________ Dollars ($______________) to Seller as earnest money (“Earnest Money”). In the event this Agreement is not accepted by Seller, the Earnest Money shall be promptly returned to Buyer. Upon acceptance of this Offer by Seller, such Earnest Money shall secure the Buyer's performance of this Agreement and in the event of a default by Buyer in the performance of its obligations herein specified, Seller shall have the right to terminate this Agreement and the Earnest Money shall be paid to Seller as liquidated damages as Seller’s sole remedy at law or in equity; and
   2.2 The balance of the Purchase Price, subject to adjustments as set forth herein, shall be payable in certified funds or by electronic transfer of funds on the “Closing Date” (as hereinafter defined).
   2.3 In addition to the Purchase Price, Buyer shall, at Closing as hereinafter defined, pay Seller’s representative a 10% Buyer’s premium pursuant to the terms of a separate addendum to this Agreement.

3. Contingencies and Inspection Period. The obligation of the Seller is contingent upon approval of the transaction contemplated by this Agreement as required by IC 4-13-2-14.1, IC 4-13-2-14.2 and IC 4-20.5-7.
4. **Closing.** In the event that Seller has accepted this Agreement and the parties proceed to closing, the closing of the purchase and sale contemplated by this Agreement (the “Closing”) shall occur within thirty (30) days following State approval as set forth above (the "Closing Date"). **Such final closing is subject to and conditional upon approval by the Office of the Governor and the Indiana Attorney General,** unless extended by mutual agreement of the parties. The Closing shall take place at a time, place, and on a date agreeable by Seller and Buyer. The Buyer will be responsible for title fees, escrow fees, and costs charged by the company with whom the earnest money is deposited as outlined in Section 5.1.

4.1 **Seller’s Closing Documents.** On the Closing Date, Seller shall have executed and delivered or caused to be delivered to Buyer the following (collectively, “Seller’s Closing Documents”), all in form and content reasonably satisfactory to Buyer:

4.1.1 **Deed.** A Quitclaim Deed conveying the Property to Buyer, an exemplar of such Quitclaim Deed is attached hereto as Exhibit B.

4.1.2 **Documents.** Copies of all contracts, permits and warranties affecting the Property that will survive the Closing, if any.

4.1.3 **Sales Disclosure Form.** An Indiana sales disclosure form.

4.1.4 **Other Documents.** All other documents reasonably determined by Buyer to be necessary to transfer title to the Property to Buyer free and clear except Permitted Exceptions to Title.

4.2 **Buyer’s Closing Documents.** On the Closing Date, Buyer will execute and deliver to Seller the following (collectively, “Buyer’s Closing Documents”):

4.2.1 **Purchase Price.** Funds representing the Purchase Price, by electronic transfer of immediately available funds.

4.2.2 **Assumption of Contracts, Permits, Warranties and Miscellaneous Documents.** An Assumption of Contracts, Permits and Warranties, if any, assuming Seller’s obligations under such documents.

4.2.3 **Sales Disclosure Form.** An Indiana sales disclosure form.

4.2.4 **Other Documents.** All other documents reasonably determined by Seller or Title Company to be necessary to complete the transaction contemplated by this Agreement. Including a Vendor Information form required by the State of Indiana Auditor’s Office, an exemplar of such Vendor Information form is attached hereto as Exhibit C.

5. **Allocation of Costs.** Seller and Buyer agree to the following allocation of costs regarding this Agreement:

5.1 **Title Insurance and Closing Fee.** Buyer shall be solely responsible for the payment of all premiums and fees associated with title insurance, including any and all closing fees or recording charges. Buyer shall be responsible for payment, at or before Closing, of search fees charged by the title company from whom Seller obtained a preliminary title review and commitment. Unless waived by the title company, said closing fees shall be payable by Buyer whether or not Buyer obtains a policy of title insurance.

5.2 **Taxes and Assessments.** The Property being conveyed is owned by the State of Indiana and is exempt from all real property taxes. The Seller shall assume no responsibility or liability for any real property taxes or other assessments from
which it is statutorily exempt. Buyer shall be solely responsible for, and indemnify Seller against, any and all real property taxes assessed with respect to the Real Property on or after Closing.

5.3 **Utilities.** Seller shall either ensure that utility service to the Property is disconnected as of the Closing Date or shall cooperate with Buyer in having such utility services transferred to Seller’s account. All contracts relating to operating the Property shall be canceled as of the Closing Date.

5.4 **Attorney’s Fees.** Each of the parties will pay its own attorney’s fees.

6. **Evidence of Title.** In the event that Buyer does not order and receive a commitment for title insurance, Seller shall, at its expense, within ten (10) days after written request from Buyer, furnish to Buyer a copy of the documents by which the State obtained or otherwise holds title or a letter from the State Land Office describing the documents by which the State obtained and otherwise holds title. Seller will cooperate with the Buyer or its title company in clarifying or resolving any perceived deficiencies or clouds in the title, but shall not be required to incur any expense beyond commitment of the time of the State Land Office. If such issues cannot be resolved to Buyer’s satisfaction, Buyer may terminate this Agreement, and the Earnest Money, if any, shall be returned.

7. **Maintenance of the Real Property Prior to Closing.** During the period from the date of Seller’s acceptance of this Agreement to the Closing Date, Seller shall maintain the Property and improvements in a reasonably prudent manner. Seller shall execute no contracts, leases or other agreements regarding the Property between the date hereof and the Date of Closing that are not terminable on or before the Closing Date, without the prior written consent of Buyer, which consent may be withheld by Buyer at its sole discretion.

8. **Representations and Warranties by Seller.** Seller represents and warrants to Buyer as follows:

8.1 **Existence; Authority.** Seller has the requisite power and authority to enter into and perform this Agreement and to execute and deliver Seller’s Closing Documents; such documents have been duly authorized by all necessary action.

8.2 **Contracts.** Seller has made available to Buyer a correct and complete copy of any Contract and its amendments which will survive a closing hereunder, if any.

8.3 **Operations.** Seller has received no written notice of actual or threatened cancellation or suspension of any utility services for any portion of the Property. Seller has received no written notice of actual or threatened special assessments or reassessments of the Property.

8.4 **Litigation.** To Seller’s knowledge, there is no litigation or proceeding pending or threatened against or relating to the Property, nor does Seller know of or have reasonable grounds to know of any basis for any such action or claim.

8.5 **Physical Condition.** Seller makes no representation or warranty concerning the physical condition of the Property and puts Buyer to the obligation to satisfy itself pursuant to the contingency contained in Section 3 above.

9. **Casualty; Condemnation.** If all or any part of the Property is materially damaged by fire, casualty, the elements or any other cause, Seller shall immediately give notice to Buyer, and Buyer shall have the right to terminate this Agreement and receive back all Earnest Money by giving notice within thirty (30) days after Seller’s notice. If eminent domain proceedings are threatened or commenced against all or any part of the Property, Seller shall immediately give notice to Buyer, and Buyer shall have the right to terminate this Agreement and receive back all
Earnest Money by giving notice within thirty (30) days after Seller’s notice. Termination of this Agreement and return of all Earnest Money are Seller’s sole remedies.

10. Notices. Any notice required or permitted hereunder shall be given by personal delivery upon an authorized representative of a party hereto; or if mailed by United States certified mail, return receipt requested, postage prepaid; or if transmitted by facsimile copy followed by mailed notice; or if deposited cost paid with a nationally recognized, reputable overnight courier, properly addressed as follows:

If to Seller: Commissioner
Indiana Department of Administration
402 W. Washington St., W479
Indianapolis, IN 46204

With Copy to: Attorney General
Office of the Indiana Attorney General
302 W. Washington St.
Indianapolis, IN 46204

If to Buyer:

With a Copy to:

Notices shall be deemed effective on the date of receipt. Any party may change its address for the service of notice by giving notice of such change ten (10) days prior to the effective date of such change.

11. Miscellaneous. The paragraph headings or captions appearing in this Agreement are for convenience only, are not a part of this Agreement, and are not to be considered in interpreting this Agreement. This written Agreement constitutes the complete agreement between the parties and supersedes any prior oral or written agreements between the parties regarding the Property. There are no verbal agreements that change this Agreement, and no waiver of any of its terms will be effective unless in a writing executed by the parties. This Agreement binds and benefits the parties and their successors and assigns. This Agreement has been made under the laws of the State of Indiana, and any suit must be brought in an Indiana court of competent jurisdiction.

12. Remedies. If Buyer defaults, and if Buyer fails to cure such default within ten (10) days of the date of notice of such default from Seller, then Seller shall have the right to terminate this Agreement by giving written notice of termination to Buyer. In the event of termination Seller will receive the Earnest Money as liquidated damages, time being of the essence of this Agreement. The termination of this Agreement and retention of the Earnest Money will be the sole remedy available to Seller for such default by Buyer, and Buyer will not be liable for damages or specific performance. Buyer’s sole remedy for any default by Seller shall be termination of this Agreement and return of the Earnest Money.

13. Buyer’s Examination. Buyer is relying solely upon its own examination of the Property and inspections in determining its physical condition, character, and suitability for Buyer’s intended use of the Property and is not relying upon any representation by Seller or any broker, except for those made by Seller directly to Buyer in writing in Exhibit D, which is attached to this
agreement. Buyer agrees and acknowledges that it is accepting the Property “AS IS” subject to all faults of every kind and nature whatsoever, whether latent or patent, and whether now or hereafter existing, and Buyer acknowledges that it has based its decision to purchase the Property solely upon information obtained independently by Buyer. Buyer shall sign a Hold Harmless Affidavit, an exemplar of such Hold Harmless Affidavit is attached hereto as Exhibit E. Buyer shall acquire the Property subject to all laws imposed upon the Property by any governmental or quasi-governmental authority having jurisdiction thereof. Buyer represents and warrants to Seller that Buyer has not relied, and will not rely, upon the representation or statement, or the failure to make any representation or statement, by Seller or Seller’s agents, employees or by any person acting or purporting to act on the behalf of Seller with respect to the physical condition of the Property.

14. Compliance with Telephone Privacy. As required by IC 5-22-3-7:
   (1) the Buyer and any principals of the Buyer certify that (A) the Buyer, except for de minimis and nonsystematic violations, has not violated the terms of (i) IC 24-4.7 [Telephone Solicitation Of Consumers], (ii) IC 24-5-12 [Telephone Solicitations] , or (iii) IC 24-5-14 [Regulation of Automatic Dialing Machines] in the previous three hundred sixty-five (365) days, even if IC 24-4.7 is preempted by federal law; and (B) the Buyer will not violate the terms of IC 24-4.7 for the duration of the Contract, even if IC 24-4.7 is preempted by federal law.
   (2) The Buyer and any principals of the Buyer certify that an affiliate or principal of the Buyer and any agent acting on behalf of the Buyer or on behalf of an affiliate or principal of the Buyer (A) except for de minimis and nonsystematic violations, has not violated the terms of IC 24-4.7 in the previous three hundred sixty-five (365) days, even if IC 24-4.7 is preempted by federal law; and (B) will not violate the terms of IC 24-4.7 for the duration of the Contract, even if IC 24-4.7 is preempted by federal law.

15. Withdrawal of Offer. This Agreement shall be deemed to be withdrawn, unless accepted by Seller, after one-hundred-fifty (150) days of delivery to Seller. In the event of a withdrawal under this section, Buyer shall be entitled the return of the Earnest Money.

16. Additional terms.

____________________________________________________________________________

17. Non-Collusion and Acceptance. The undersigned attests, subject to the penalties for perjury, that he/she is the Buyer, or that he/she is the properly authorized representative, agent, member or officer of the Buyer, that he/she has not, nor has any other member, employee, representative, agent or officer of the Buyer, directly or indirectly, to the best of the undersigned’s knowledge, entered into or offered to enter into any combination, collusion or agreement to receive or pay, and that he/she has not received or paid any sum of money or other consideration for the execution of this Property Purchase Agreement other than that which appears upon the face of this Agreement.
In Witness Whereof, Buyer and the Seller have, through their duly authorized representatives, entered into this Property Purchase Agreement. The parties, having read and understood the foregoing terms, do by their respective signatures dated below hereby agree to the terms thereof.

Project Description

This project involves the sale of 0.229 acres of excess R/W from parcel 9 located 1.53 miles west of SR 9 at the intersection of US 52 and Meridian Road in Hancock County. The parcel is located in the southwest quarter of Section 31, Township 15 north, Range 7 east. The parcel was purchased by INDOT as part of a previous intersection improvement project under Des 9800840. The house that once stood on the property has been demolished due to R/W requirements for roadway construction. The remaining parcel is considered excess R/W. Therefore, INDOT seeks to dispose of the property.

Purpose and Need for Action

The purpose of this project is to exonerate the 0.229 acres of excess R/W currently in INDOT possession. The need of the project is the excess R/W created by the intersection improvement project under Des 9800840.

Alternatively Considered

Do nothing

Project Termini

Parcel 9 is located in the northeast quadrant of the intersection at US 52 and Meridian Road, 1.53 miles west of SR 9 in Hancock County.

During a site visit on April 8, 2009 no hazardous materials were observed in or near the project area. Additionally, a review of the Red Flag GIS Base Map and Red Flag Investigation provided by the INDOT Office of Environmental Services, Hazardous Materials Unit (attached) revealed that no hazardous materials are located in or near the project area. However, since the project involves disposing of INDOT R/W, a Phase I investigation was completed by the INDOT OES Hazardous Materials Unit for precautionary measures. The result of the Phase I investigation (attached) revealed that there was no evidence of recognized environmental conditions on or within a one mile radius of the property. Therefore, no further investigation is needed, and this property can be disposed of without any concern for environmental issue.

No permits are required for this project. However, if any permits become applicable it will be the responsibility of the project designer to apply for them.

*Criteria used for determination of CE Level. See threshold table below.
**Environmental Commitments:**

1. If any artifacts, burial objects, or human remains are discovered, ground disturbing activities shall cease, and the Department of Natural Resources will be notified within two (2) business days. In the event, please call (317) 232-5161.

EXHIBIT "A"
Parcel 9—Excess Land
Code: 4230

A part of the West Half of the Southwest Quarter of Section 31, Township 15 North, Range 7 East, in Hancock County, Indiana more particularly described as follows: Beginning at the point of intersection of said west half of the southwest quarter of said section, with the centerline of U.S. Highway 52; thence North on said West line 200.00 feet; thence Southeasterly parallel with the centerline of said U.S. Highway 52, a distance of 110.00 feet; thence South parallel with said west line of quarter section; thence Northwesterly on said Highway centerline 110.00 feet to the point of beginning.

Except the following: beginning at the aforesaid point of beginning; thence North 00 degrees 20 minutes 27 seconds West 200.00 feet; thence South 71 degrees 31 minutes 00 seconds East 23.61 feet to the eastern boundary of Meridian Road; thence South 03 degrees 26 minutes 25 seconds East 92.47 feet along said eastern boundary of Meridian Road to point # 17 on the attached plat; thence South 11 degrees 11 minutes 31 seconds East 27.07 feet along said eastern boundary of Meridian Road to point # 13 on the attached plat; thence South 54 degrees 24 minutes 50 seconds East 68.01 feet along the northeastern boundary of the intersection of said U.S. Highway 52 and Meridian Road to point # 14; thence South 71 degrees 31 minutes 00 seconds East 17.55 feet along said eastern boundary of U.S. Highway 52 to the East line of the grantors’ land, which point is # 15; thence South 00 degrees 20 minutes 27 seconds East 63.39 feet to the centerline of said U.S Highway 52; thence North 71 degrees 31 minutes 00 seconds West 110.00 feet along said centerline of U.S. Highway 52 to the point of beginning and containing 0.249 acres more or less, and containing after said exception 0.229 acres more or less.

The above description was prepared from existing INDOT Record and a route survey recorded as Instrument #0113578 in the Office of the Recorder of Hancock County.

This description was prepared for the Indiana Department of Transportation by Ronald L. Raney, Indiana Registered Land Surveyor, License Number LS 80870012 on the 27th day of March, 2009.

Ronald L. Raney
SURVEYOR'S STATEMENT

To the best of my knowledge and belief, this plat, together with the Location Route Survey Plat Recorded as Instrument Number _D113576_ in the Office of the Recorder of Hancock County, Indiana (incorporated and made a part hereof by reference) comprise a Route Survey executed in accordance with Indiana Administrative Code 665 IAC 1-12, ("Rule 12").

This plat was prepared from information obtained from the Recorder's Office and other sources which were not necessarily checked by a field survey.

www.in.gov/dot/  
An Equal Opportunity Employer
Explanation:
The intersection improvement project with added turn lanes under Des 9800840 has been completed and the house that once stood on the property has been demolished and will not impact the excess R/W transaction. Although within the half-mile radius investigation area, the pipelines are located outside the vicinity of the 0.229 acres of excess R/W and should not be of concern during this transaction.

Supervisory concurrence: _____ KBM (Initial)

### Water Resources

Indicate items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project:

<table>
<thead>
<tr>

<td>Cave Entrance Density</td>
</tr>
<tr>
<td>Sinkhole Areas</td>
<td>Karst Springs</td>
</tr>
<tr>
<td></td>
<td>Sinking-Stream Basins</td>
</tr>
</tbody>
</table>

* Reason for impairment, if applicable:

Explanation:
Although within the half-mile radius investigation area, the wetland and floodplain (according to the Flood Insurance Rate Map provided by FEMA) are located outside the vicinity of the 0.229 acres of excess R/W and should not be of concern during this transaction. No additional waterway permitting should be necessary for this transaction.

Supervisory concurrence: _____ KBM (Initial)

### Mining/Mineral Exploration

Indicate items of concern found within ½ mile, including an explanation why each item within the ½ mile radius will/will not impact the project:

<table>
<thead>
<tr>

<td>Mines – Underground</td>
</tr>
<tr>
<td>Petroleum Fields</td>
<td>X</td>
</tr>
</tbody>
</table>

Explanation:
Although within the half-mile radius investigation area, the petroleum field is located outside the vicinity of the 0.229 acres of excess R/W and should not be of concern during this transaction.

Supervisory concurrence: _____ KBM (Initial)

### Ecological Information

From the county listing of the Indiana Natural Heritage Data Center, information on endangered, threatened, or rare (ETR) species and high quality natural communities:

www.in.gov/dot/

An Equal Opportunity Employer
One terrestrial species (vertebrate) from the federal list of Endangered, Threatened and Rare Species List is located within Hancock County, but is not indicated to be within the half-mile radius of the excess R/W. Due to the scope of this project, no potential for contact with endangered, threatened or rare species is anticipated.

**Cultural Resources**

It was determined by the INDOT Cultural Resources Department that the APE boundary for the previous intersection improvement project under Des 9800840 incorporated the house on this parcel which was not found to be eligible for the National Register of Historic Places. Therefore the house was demolished due to R/W requirements. Shaun Miller of the INDOT Cultural Resources Department concluded that INDOT’s “finding of no historic properties affected” concurred by the SHPO via letter dated 7-25-03 is still valid and no further Section 106 consultation is necessary.

Supervisory concurrence: KBM (Initial)

* Reason for impairment, if applicable:

Explanation:
No Hazardous Material Concern sites were observed within the half-mile radius of the excess R/W location.

Supervisory concurrence: KBM (Initial)

**Recommendations**

Due to the scope of this project, no potential for contact with any associated hazard listed within this report is anticipated. However, a Phase I Investigation will be completed since the excess R/W is to be sold.

Re: Phase I Environmental Site Assessment Report

A 0.229 acre excess parcel for disposal located at the north east corner of the intersection of SR 52 and Meridian Road, 1.53 miles west of the SR 52 and SR 9 intersection. This parcel remains after an INDOT intersection improvement project.

The Office of Environmental Services is pleased to submit our report describing the findings of the Phase I Environmental Site Assessment (ESA) of the 0.229 acre parcel on the northeast corner of the intersection of SR 52 and Meridian. This parcel formerly was the site of a residence. The residence has been demolished, and no structures remain on the property. This assessment was prepared in general accordance with the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation: E1527-05).

The purpose of the Phase I ESA was to identify, to the extent feasible, recognized environmental concerns in connection with the property. This assessment included a site reconnaissance as well as records research and interviews.

If you have any questions or require further clarification of the report findings, please contact the undersigned at your convenience.

Yours very truly,

The Office of Environmental Services

Kenneth Gill, LPG
Environmental Scientist

Kenneth McMullen, CHMM 14768

SUMMARY

A Phase I Environmental Site Assessment (ESA) of an excess parcel located on the northeast corner of SR 52 and Meridian. This was a former residential parcel. INDOT acquired the parcel for an intersection improvement and demolished the residence prior to the road project. The remainder of the parcel consists of 0.29 acres, and is subsequently referred to in this report as “the property” or “the parcel”. The Phase I Environmental Assessment was conducted by this office. This assessment was prepared in general accordance with the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation: E1527-05).

The purpose of the Phase I ESA was to identify, to the extent feasible, recognized environmental conditions in connection with the property. This assessment included a site reconnaissance as well as records research and interviews with representatives of the public, property management, and regulatory agencies.

The subject property consists of a now vacant lot, with a residence and metal shop building adjacent to and north of the parcel. East of the parcel is an occupied single family residence. South of the parcel is SR 52. West of the parcel is Meridian Road. The current property use is vacant, waiting disposal as excess INDOT property. The parcel is flat, with a mowed grass cover. A limestone lane is present on the west side of the parcel.

The following buildings and structures are located on the subject property:

There are no longer any buildings or parcels on the property. It is reported that there is an underground pipeline on the parcel, but there is no visible indication of the pipeline.

The results of this assessment have revealed the following suspected current recognized environmental conditions associated with the property:

None

The results of this assessment have revealed the following historical suspected Recognized Environmental Concerns associated with the property:

None

The results of this assessment have revealed no de minimis conditions associated with the property.

No current recognized environmental conditions were identified in the Findings section of this report and thus in our professional opinion no impact is anticipated.

In our professional opinion it is recommended that there no additional environmental investigations be conducted at or near this parcel.

There were no data gaps that significantly affected our ability to identify recognized environmental conditions associated with the property.

This Phase I ESA complies with the ASTM Standard 1527-05.

Two interviews were conducted related to this property by the Indiana Department of Transportation. See Section 7.0 Interviews Section of this report.
2.0 INTRODUCTION
The INDOT Greenfield District engaged The Office of Environmental Services to conduct a Phase I Environmental Site Assessment (ESA) of the 0.229 acre excess property. The property formerly was the site of a residence. The parcel was acquired by INDOT as part of an intersection improvement. Part of the property was used for the intersection project. The remainder of the property is not needed by INDOT and has been declared excess property to be disposed of. The property is located on the northeast corner of the intersection of SR 56 and Meridian Road, in Hancock County. The parcel is located 1.53 miles west of SR 9. This assessment was prepared in general accordance with the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation: E1527-05).

2.1 Purpose
The purpose of the Phase I ESA was to identify, to the extent feasible, recognized environmental concerns in connection with the property. This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property management, and regulatory agencies.

2.2 Scope of Services
The scope of work for this assessment was in general accordance with the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation: E1527-05). These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions.

2.3 Significant Assumptions
While this report provides an overview of potential environmental concerns, both past and present, the environmental assessment is limited by the availability of information at the time of the assessment. It is possible that unreported disposal of waste or illegal activities impairing the environmental status of the property may have occurred which could not be identified. The conclusions and recommendations regarding environmental conditions that are presented in this report are based on a standard operating procedure. Note, however, that virtually no scope of work, no matter how exhaustive, can identify all contaminants or all conditions above and below ground.

2.4 Limitations and Exceptions
The report has been prepared in accordance with generally accepted environmental methodologies referred to in ASTM 1527-05, and contains all of the limitations inherent in these methodologies. No other warranties, expressed or implied, are made as to the professional services provided under the terms of our contract and included in this report.

Specific limitations and exceptions to the report are:

All pictures and site surveys were conducted from the right of way of the state of Indiana or other public right of ways, or from direct access to the property and neighboring properties.
The conclusions of this report are based in part, on the information provided by others. The possibility remains that unexpected environmental conditions may be encountered at the site in locations not specifically investigated. Should such an event occur, The Office of Environmental Services must be notified in order that we may determine if modifications to our conclusions are necessary.

The services performed and outlined in this report were based, in part, upon visual observations of the site and attendant structures. Our opinion cannot be extended to portions of the site that were unavailable for direct observation, reasonably beyond the control of The Office of Environmental Services.

The objective of this report was to assess environmental conditions at the site, within the context of our contract and existing environmental regulations within the applicable jurisdiction. Evaluating compliance of past or future owners with applicable local, provincial and federal government laws and regulations was not included in our contract for services.

Our observations relating to the condition of environmental media at the site are described in this report. It should be noted that compounds or materials other than those described could be present in the site environment.

2.5 Special Terms and Conditions

There were no special terms or contractual conditions for this assessment.

2.6 User Reliance

This report may be distributed and relied upon by INDOT, its successors and assigns. Reliance on the information and conclusions in this report by any other person or entity is not authorized without the written consent.

2.7 SITE DESCRIPTION

2.8 Location and Legal Description

The subject property is located on the northeast corner of the intersection of SR 52 and Meridian Road. The property is located on SR 52 between Carrollton and Fountaintown. It is 1.53 miles west of the intersection of SR 52 and SR 9. The property was acquired by INDOT in order to construct an intersection improvement. Of the original parcel, 0.228 acres remain and is to be disposed of. The parcel originally had a residential building. That building was demolished by INDOT. No legal description is available. The property is roughly rectangular in shape.

2.9 Site and Vicinity General Characteristics

The area around and near the property is rural. SR 52 is a busy east-west roadway. Approximately two hundred (200) feet to the north of the property is an active railroad, which mostly parallels SR 52. There are a small number of other houses adjacent to and near the INDOT parcel. Other than for these houses, the area is dominantly agricultural. There is one commercial operation 500 hundred (500 feet south and west of the parcel. This is the Autumn Oaks Tree Services. This facility was visited during the site reconnaissance, and information about the business in included in Section 8.0 Findings Section of this
report. The location of the INDOT parcel and the location of the Autumn Tree Service is depicted on the map in Appendix 4, Aerial Photography Detail of this report.

2.10 Current Use(s) of the Property

The current property use is: Vacant, grassy lot, formerly with a residential structure. No structures at this time.

2.11 Structures, Roads, Other Improvements on the Site

The following buildings and structures are located on the subject property:

None. An underground pipeline is reportedly beneath the site.

The following roads are located on the property:
None. SR 52 is present to the south of the property. Meridian Road is present to the west of the property.

There are no buildings on the property.

It is not known if public sanitary sewage utility is present, or whether the former house used a septic system. The property appears to be perhaps too small to have a functioning septic system.

The remains of a small limestone gravel lane is present connecting the property to Meridian Road.

2.12 Current Uses of Adjoining Properties

The current adjoining property uses are:

<p>| | |</p>

2.13 USER PROVIDED INFORMATION

2.14 Title Records

No title company or professional was engaged by the INDOT to review recorded land title records and lien records.

2.15 Environmental Liens or Activity and Use Limitations (AULs)

INDOT is not aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law. Nor any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry.
2.16 Specialized Knowledge

INDOT does not have any specialized knowledge or experience related to the property or nearby properties.

2.17 Commonly Known or Reasonably Ascertainable Information

Indications are present indicating following past uses of the property:
Former residential lot.

INDOT does not know of any specific chemicals that are present or once were present at the property, or of any spills or other chemical releases that have taken place at the property, or of any environmental cleanups that have taken place at the property.

2.18 Valuation Reduction for Environmental Issues

The existing property will be sold; additional right of way from surrounding parcels is not likely to be purchased, since the intersection project has been completed.

2.19 Owner, Property Manager and Occupant Information

The subject property is currently owned by the State of Indiana and is currently not occupied. No Key Site Contact for the property exists.

2.20 Reason for Performing Phase I ESA

The Phase I ESA was prepared by The Office of Environmental Services for the following reasons:

In order to determine the likelihood of contamination being present that would affect the value of the property, or would impede the disposal of the property

2.21 Other

The following indicators point to the presence or likely presence of contamination at the property:
None.
3.0 RECORDS REVIEW

The purpose of the records review was to obtain and review records that will help identify recognized environmental concerns in connection with the property.

Some records reviewed pertain not only to the property, but also to properties within an additional approximate minimum search distance in order to help assess the likelihood of problems from migrating hazardous substances or petroleum products. Unless stated otherwise the approximate minimum search distances used below were as specified in the ASTM Standard 1527-05.

3.1 Standard Environmental Records

A search of available federal and state environmental records was obtained from various federal and state agencies to include but not limited to IDEM, EPA, IDNR, DHS, and INDOT. A copy of this search is provided in Appendix B. The environmental records were reviewed on 4/28/09 from IDEM, US Coast Guard, EPA, IDNR, USFWS, US Army Corps of Engineers, IDHS, and ISDH.

A review of the regulatory information from this database search for possible recognized environmental conditions (RECs) within the ASTM approximate minimum search distance is provided in the Federal and State sections below. A one mile search was conducted. No sites were found.

5.1.1 Federal Environmental Records

One Leaking Underground Storage Tank site was located just outside of the One Mile search radius.
5.2 Additional Environmental Record Sources

The following records were reviewed from the Pollution Control Agency:

IDEM’s database, the Virtual File Cabinet and the IDEM ArcView GIS maps were consulted and no indication of concern was associated with this property.

5.3 Physical Setting Source(s)

A current USGS 7.5 Minute Topographic Map, for the Fountaintown 7'5" Quadrangle, was reviewed to determine the physical setting and historical information of the property.

5.4 Historical Use Information on the Property

The objective of consulting historical sources is to develop a history of the previous uses of the property in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. Historical use information describing the subject property was obtained from a variety of sources as discussed below. This information is summarized in the table below.

<table>
<thead>
<tr>
<th>Period/Date</th>

5.5 Historical Use Information on Adjoining Properties

The objective of consulting historical sources is to develop a history of the previous uses of the surrounding properties in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. The historical uses of adjoining properties to the subject property are summarized below. These uses were determined using the standard historical sources noted above.

6.0 SITE RECONNAISSANCE

The purpose of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the property.

6.1 Methodology and Limiting Conditions

The subject property was inspected by Kenneth Gill, INDOT Environmental Services Section on 4/22/2009. Mr. Gill was not accompanied during the inspection. The weather during the inspection was clear sunny day.

All areas of the subject property were accessible at the time of the inspection. All areas were reviewed from state or public right of ways. The following obstructions limited the inspection of areas of the subject property:

A property fence obstructed view of possible REC on the southeast side of SR 25

During the inspection an exterior and interior walk-through of the culvert was performed. The exterior of adjoining properties were visually evaluated for any recognized environmental concerns (RECs).

6.2 General Site Setting

6.2.1 Current Use(s) of the Property

The current property use is Transportation, box culvert.

The following Recognized Environmental Concerns (RECs) may be associated with the current property use:

*Three observed RECs are associated with this property. 1. Auto junkyard*

6.2.2 Past Use(s) of the Property

The past use of the property was:

Transportation, the new rights of way appear to have been forested and/or agricultural/residential.

The following RECs may be associated with the past property use:
6.2.3 Current Use(s) of Adjoining Properties

The current uses of the adjoining properties are:

<table>
<thead>
<tr>
<th>North:</th>
<th>residential/agricultural</th>
</tr>
</thead>
<tbody>
<tr>
<td>South:</td>
<td>undeveloped/industrial</td>
</tr>
<tr>
<td>East:</td>
<td>residential/commercial/transportation</td>
</tr>
<tr>
<td>West:</td>
<td>transportation</td>
</tr>
</tbody>
</table>

The following recognized environmental concerns (RECs) were identified on the adjoining properties:

<table>
<thead>
<tr>
<th>North:</th>
<th>None</th>
</tr>
</thead>
<tbody>
<tr>
<td>South:</td>
<td>Glenn’s Garage has what appears to be and from here on will be referred to as an &quot;auto graveyard&quot;. Several dozen abandoned automobiles are present and appear to have been present for some time.</td>
</tr>
<tr>
<td>East:</td>
<td></td>
</tr>
<tr>
<td>West:</td>
<td>None</td>
</tr>
</tbody>
</table>

6.2.4 Past Use(s) of Adjoining Properties

The past uses of the adjoining properties are:

<table>
<thead>
<tr>
<th>North:</th>
<th>agricultural</th>
</tr>
</thead>
<tbody>
<tr>
<td>South:</td>
<td>residential/undeveloped</td>
</tr>
<tr>
<td>East:</td>
<td>undeveloped/light commercial(super test)</td>
</tr>
<tr>
<td>West:</td>
<td>transportation</td>
</tr>
</tbody>
</table>

The following recognized environmental concerns (RECs) from past uses were identified on the adjoining properties:

<table>
<thead>
<tr>
<th>North:</th>
<th>None</th>
</tr>
</thead>
<tbody>
<tr>
<td>South:</td>
<td>None</td>
</tr>
<tr>
<td>East:</td>
<td>None</td>
</tr>
<tr>
<td>West:</td>
<td>None</td>
</tr>
</tbody>
</table>

6.2.5 Current or Past Uses in the Surrounding Area

The area is zoned as residential to the south, Commercial/Industrial to the west, Agricultural to the north and east. The general area of the property is used for residential/light industrial. The following recognized environmental concerns may be associated with the present and past uses of the properties in the general area:

RCRA generators, LUST, UST, spills
6.2.6 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

The topography of the property is relatively flat, roadway. The topography of the surrounding area is rolling hills.

Based on the topography and likely presence of hazardous substances or petroleum products on nearby properties there is a possibility that these substances could migrate to the property. The auto graveyard appears to be uphill, and the stream runs through this site.

Based on the topography and likely presence of hazardous substances or petroleum products on the property there is a possibility that these substances could migrate from the property to the groundwater or soil. Because of the un-named tributary any contaminants on the parcel are likely to migrate.

6.2.7 General Description of Structures

The following buildings and structures are located on the subject property:
A box culvert

<table>
<thead>
<tr>
<th>Age</th>
<th>Stories</th>
<th>Usage</th>
<th>Construction</th>
</tr>
</thead>
<tbody>
<tr>
<td>20</td>
<td>0</td>
<td>Culvert</td>
<td>Concrete</td>
</tr>
</tbody>

6.2.8 Roads

The following roads are located on the property:

6.2.9 Potable Water Supply

No potable water on the property.

6.2.10 Sewage Disposal System

No sanitary sewage on the property.

6.3 Interior and Exterior Observations

6.3.1 Hazardous Substances and Petroleum Products in Connection with Identified Uses

No hazardous materials were observed to be stored or used on the property in connection with identified uses.

6.3.2 Storage Tanks

Determining the presence of Aboveground Storage Tanks (ASTs) and Underground Storage Tanks (USTs) is considered essential in assessing potential contamination sources. Visual inspection and the
review of tank registration records are used to determine the possible existence of past and present storage tanks in the area of the subject property. It must be noted however, that the absence of certain site conditions or lack of records may restrict or prevent the determination of the number and contents of storage tanks on the subject property.

No aboveground storage tanks were observed on the subject property. 1 AST with Kerosene was noted on an adjacent parcel owned/operated by Morrison's CITGO.

No underground storage tanks were observed on the subject property. Several UST's were noted at the same adjacent parcel above.

Vent, fill pipes, or access ways were not observed on the subject property.

6.3.3 Odors

No strong, pungent or noxious odors were noted.

6.3.4 Pools of Liquid

Standing surface water was observed on the property due to recent flooding in the area.

6.3.5 Drums

There are no drums or containers on the property.

6.3.6 Hazardous Substances and Petroleum Products Containers

No containers with hazardous materials or petroleum products that might represent a recognized environmental condition were observed on the property.

6.3.7 Unidentified Substance Containers

No open or damaged containers containing unidentified substances suspected of being hazardous substances or petroleum products were observed on the property.

6.3.8 PCBs

The past use of PCBs in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors was common. PCBs in electrical equipment are controlled by United States EPA regulation 40 CFR, Part 761. According to this regulation there are three categories for classifying electrical equipment; less than 50 ppm of PCBs is considered “Non-PCB”, between 50 and 500 ppm is considered “PCB-Contaminated”; and greater than 500 ppm is considered “PCB”. 
No electrical or hydraulic equipment known or likely to contain PCBs were observed on the property.

6.4 Interior Observations

6.4.1 Heating/Cooling

Not Applicable. There are no heated or air-conditioned buildings on the property.

6.4.2 Stains or Corrosion

There were not stains of corrosion observed on the property.

6.4.3 Drains and Sumps

There are no buildings on the property which would have drains or sumps.

6.5 Exterior Observations

6.5.1 Pits, Ponds, or Lagoons

No pits, ponds, or lagoons were observed on the property or adjoining properties.

6.5.2 Stained Soil or Pavement

The following areas of stained soil were observed on the property:

None.

6.5.3 Stressed Vegetation

No areas of stressed vegetation were observed on the property not readily explained by normal climate conditions.

6.5.4 Solid Waste

No areas, mounds, or depressions that may be filled or graded by non-natural causes or filled with fill of unknown origin suggesting trash or other solid waste disposal were observed on the property.

6.5.5 Waste Water

Waste Water issues Not Applicable.
6.5.6  Wells

No wells were observed on the property. Not known if property had a well or status of possible former well.

<table>
<thead>
<tr>
<th>Type</th>
<th>No. of Wells</th>

</tr>
</tbody>
</table>

6.5.7  Septic Systems

No septic systems or cesspools were observed on the property.

7.0  INTERVIEWS WITH KNOWLEDGEABLE PEOPLE

The purpose of interview is to obtain information indicating recognized environmental conditions in connection with the property. Copies of the interview documentation can be found in Appendix 6.

7.1  Interviews with Neighboring Owners and Occupants

Interviews were conducted with the following people who have knowledge about the property and surrounding area:

Ronald Bright. Owner of the property north of and adjacent to the INDOT excess property. Retired telephone company executive.

7.2  Interviews with State and/or Local Government Officials

No interviews were conducted with State or Local officials.
8.0 FINDINGS

The results of this assessment have revealed the following suspected current recognized environmental conditions associated with the property:

The results of this assessment have revealed the following historical suspected recognized environmental conditions associated with the property: None.

The results of this assessment have revealed no de minimis conditions associated with the property.

9.0 OPINION

Two current recognized environmental conditions were identified in the Findings section of this report and thus in our professional opinion, it is very unlikely that environmental problems exist either on the property or in the vicinity.

The rationale for concluding that a condition is or is not currently a recognized environmental condition was relative proximity and potential risk from the hazards outlined in the findings section.

In our professional opinion it is recommended that the following additional investigation be conducted to detect the presence of hazardous substances or petroleum products and provide greater certainty regarding identified recognized environmental conditions on the property:

There were no data gaps that significantly affected our ability to identify recognized environmental conditions associated with the property.

10.0 CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527 on the INDOT 0.229 acre excess property at the intersection of SR 52 and Meridian Road in Hancock County Indiana. This property is 1.52 miles west of SR 9.

This assessment has revealed no evidence of recognized environmental conditions on or within a one mile radius of the property. In our professional opinion, no further investigation is needed, and this property can be disposed of without any concern for environmental issues.

11.0 DEVIATIONS

Except for the limitations and exceptions discussed in Section 2.4 and below, this Phase I ESA complies with the ASTM Standard 1527-05.
12.0 ADDITIONAL SERVICES

No additional services beyond the scope of the ASTM Standard 1527-05 were conducted as part of this assessment. No soil, water or groundwater samples were collected for this Phase I study.

13.0 REFERENCES

The following documents, maps, or other publications may have been used in the preparation of this report.

- United States Department of Agriculture, Soil Conservation Service, Soil Surveys.

- United States Department of the Interior, Fish and Wildlife Service, National Wetlands Inventory Map

- INDOT's Hazardous Materials Unit Operating Manual
14.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Additional Documentation
Aaron,

In looking through the environmental documents, I don't think any additional 106 work is necessary. The APE for the project would have incorporated the house on the parcel and it was not found to be eligible since it was demolished. The addendum to the CE states that INDOT archaeologist Curtis Tomak visited the project area twice to assess impacts to cultural resources due to an increase in the scope of the project. This occurred after the Ball State survey so I'm inclined to believe (and Curtis thinks this is also the case) that the increase in scope included the purchasing of this particular parcel. The Ball State archaeological records check and survey found no sites and the subsequent investigations by Curtis failed to find anything also. Therefore, no archaeological work is needed. It is also my opinion that INDOT's "finding of no historic properties affected" concurred by SHPO by letter dated July 25, 2003 is still valid and no further Section 106 consultation is necessary. I believe this parcel is covered by the addendum to the CE.

Thanks,

Shaun Miller

---

Hello,

I am preparing a CE document for the disposal of 0.229 acres of INDOT excess R/W located at US 52 and Meridian Rd, 1.53 miles west of SR 9 in Hancock County (parcel 9). This action is the result in the completion of the project under Des 9800840. The parcel was originally purchased by INDOT as part of permanent R/W required for the construction of Des 9800840 and had the house and outbuilding demolished. Now the land is vacant and INDOT intends on selling the excess R/W. The original CE document for Des 9800840 can be found in Projectwise along with other information concerning this parcel. The information can be found at: \pw:\indotge10\INDOTWise\Documents\District Offices\Greenfield\EnvironmentalScoping\Projects\9800840\Environmental Document\EnvDoc Des 9800840 CE signed.pdf

I am requesting the opinion of the Cultural Resources Department and the Archaeological Department as to whether or not this project requires an additional full Section 106 and 4(f)/6(f) investigation and a full Archaeological Investigation. Please let me know if you have any questions or if you need anymore information.

Thanks

Subject: FW: Excess Land Request, Parcel 9, Des. #9800840

Please get this process started whenever you get a chance. Give me an estimate on when we think it'll be completed once you get to that point. This takes a back seat to any ARRA (stimulus) project you’re working on right now. Thanks!

Subject: Excess Land Request, Parcel 9, Des. #9800840

Nathan,

Attached are the parcel plat and legal description, deed of acquisition, and plan sheet for an excess land request. We are requesting that the environmental reports be updated for this parcel so that the request to sell this parcel may proceed.

Construction on this project has concluded, but the project has not been closed out in SPMS yet. We are hoping to get a jump on the sale process by compiling the paperwork needed in advance. Once the project is closed out, we will send all the paperwork to CO to proceed with the sale.

Please let me know if you need any additional information or have any questions.
