fastenal.com
PROGRAM HIGHLIGHTS

- Local product, Personal Service & Solutions available throughout 86 Indiana locations with delivery of market basket items within 48 hours.
- Comprehensive & competitively bid pricing ensure’s best value resulting in leveraged purchasing power & significantly reduced costs in the Acquisition & Supply of MRO products.
- Optimizes the procurement process & eliminates waste associated with unnecessary bidding exercises and other non value added activities.
- Creates a QPA available to all units of State & Local Government that considers total cost and complies with all applicable procurement standards
- Custom Vendor Managed Inventory solutions based on the customer’s needs
- Cost savings initiatives based on best overall value supported throughout all Fastenal locations
- Efficient distribution: 14 distribution centers, the largest of which is located in Indianapolis span over 2.2 million square feet. 5,000 plus delivery vehicles give us total control over our supply channel. Orders for standard items that aren’t already in the store can be delivered within 24 to 48 hours
- No shipping costs or surcharges on standard items
- Supports MBE &WBE business through strong MBE/ WBE subcontracting Commitments

KEY POINTS

- In addition to State Agencies & Executive Offices, the QPA with Fastenal is designed to be a procurement resource for all State &Local Government Agencies, School Districts (k-12) Charter Schools and Higher Ed. As a participant of the program your agency can access a broad line of competitively solicited quality products, services, and solutions.
- Fastenal Company is the largest store based distributor of Industrial & MRO supplies in North America. Our motto of Growth Through Customer Service, complimented by our store fronts, sales force, and dedicated local inventory will ensure the success of this agreement. We look forward to serving your needs, please contact your local Fastenal representative to learn more.
- Contract begins 9/01/09 & replaces QPA 10150 & 10155

A TOTAL COST SAVINGS SOLUTION

- Immediate access to locally stocked products, including items stocked specifically for your business
- On-site, on-call service from an individual who’s 100% responsible for meeting your supply needs
- A level of effort, collaboration, and accountability that you just can’t get out of a catalog

Manufacturing & Machining

- Standard, semi-standard, and custom parts produced at 4 locations
- Reverse engineering
- Tool & cutter grinding
- Instant price quotes and expedited lead times for commonly ordered parts

Industrial Services
