QPA subscription offerings – Recognizing that state and local agencies have diverse and unique online information research and solutions needs, TR offers an extensive variety of options and packages, thus providing purchasing agencies with maximum flexibility to pick and choose the option best suited to their specific end users' needs. The TR QPA provides the following options.

Option 1—Legal Research - Option 1 provides purchasing agencies the ability to pick and choose from two (2) commonly requested online legal research packages (Options 1A-1B). Agencies may supplement these core legal research packages by choosing additional content from a select list of optional, and separately priced, add-on libraries.

Option 1A: Indiana State Primary: Westlaw Classic Platform – Option 1A provides access to state-specific primary law content on a per user basis.

Indiana State Primary—Includes state case law, statutes, and administrative rules and regulations. In addition, Westlaw is the only online legal research service that includes West synopses and headnotes, as well as the West Key Number System.

Custom Options for CLEAR

Under the custom packages option, agencies can enhance their investigation research subscription with premium tools, features, and services. Options include real-time arrest gateways, License Plate Recognition (LPR), global risk information, batch processing for high-volume searching, system-to-system capability.

Option 3—Patron Access – Option 3 provides online access to legal resources via publicly accessible terminals.

Option 4—Legal Print Publications – Option 4 provides authorized agencies a discount off retail pricing for the purchase print titles.

Option 5—Legal Research Custom Packages – If an agency’s legal research needs differ from or extend beyond the pre-packaged content sets offered under Option 1, TR can customize a legal research package specific to an agency’s needs. In addition to Westlaw, TR offers additional legal products and solutions that may be of interest to Indiana agencies, such as legal know-how/practical legal guidance, legal drafting assistance, continuing legal education (CLE), e-discovery, virtual hearings, digital evidence management, digital identity, case management, and court management.

Investigative Custom Packages –When an agency’s investigative research and law enforcement needs differ from or extend beyond the pre-packaged content sets offered under Option 2, TR can work with individual purchasing agencies to create custom special packages specific to an agency’s investigative research needs. Under the custom packages option, agencies can enhance their investigative research subscription with premium tools, features, and services. For example, CLEAR offers real-time gateway access to arrest records, global risk information, license plate recognition data, additional data delivery modes including batch processing for high-volume searching, system-to-system capability (which integrates query and result retrieval directly into internal user applications), and other investigative tools. Having numerous search options provides organizations with needed flexibility to meet unique search, retrieval, and integration requirements.
