

## PARTICIPANT NOTICE

The Indiana State Health Commissioner has authorized the use and disclosure of WIC participant demographic and health information for non-WIC purposes. This information will be used by State and local WIC agencies and public organizations only in the administration of their programs that serve persons eligible for the WIC program. This information can be used by the recipient organizations only for the following:

1. To enhance the health, education, or well-being of WIC applicants and participants currently enrolled in those programs and
2. To assess and evaluate a State's health system in terms of responsiveness to participants' health care needs and health care outcomes.

As a WIC participant, parent, guardian, or caretaker, you may choose to not have your information shared. That decision must be expressly stated to WIC staff. Choosing not to share the information will not affect participant's benefits.

Information shall be released in association with the following project:

1. Indiana Infant Mortality and Child Fatality Data Analytics
