Executive Summary

Draeger Inc. Proposal for Propane Props for Indiana Department of Homeland Security / Indiana Fire and Public Safety Academy

Overview:

Draeger Inc. is pleased to submit this proposal in response to the solicitation for providing quality Propane Props to the Indiana Department of Homeland Security (IDHS) and the Indiana Fire and Public Safety Academy. Our comprehensive solution ensures full compliance with NFPA 54, NFPA 58, NFPA 1402, and NFPA 1403 standards.

Proposal Summary:

Draeger Inc. proposes the supply of the System 64, a state-of-the-art, portable, and configurable liquid propane-fueled exterior live fire training system. This system is specifically designed to replace and enhance the current inventory of propane props used by the Indiana Fire and Public Safety Academy. The System 64 includes:

1. Control Panel: Features integrated wireless controls, an audible fault alarm, and a 100-foot power cable.
2. Equipment Box: Contains a monitored pilot burner and control valves for liquid propane gas, with durable stainless steel construction.
3. Burn Pan: Measures 6 feet by 4 feet, providing a versatile base for various fire simulations.
4. Interchangeable Props: Includes multiple training scenarios such as SUV/Vehicle Fire Prop, Commercial Dumpster Fire Prop, and more, all built with high-quality materials for durability and safety.

Compliance and Safety:

The System 64 is designed to exceed industry standards with comprehensive safety features, including:

- Continuously monitored pilot burner
- Deadman foot switch
- Emergency stop mechanism
- Interlocked logic system
- Redundant fuel valves

Training and Support:

Draeger Inc. will provide an Operation & Maintenance Training Course, tailored to accommodate shift schedules, ensuring thorough knowledge transfer. Our proposal also includes a 1-year limited parts warranty and unlimited technical phone support for the lifetime of the product.

Value Proposition:

Draeger Inc. is committed to delivering high-quality, reliable, and safe propane training props that meet the rigorous standards required by IDHS and the Indiana Fire and Public Safety Academy. Our proposal includes all necessary components, freight, and training, ensuring a seamless transition to the new equipment. We are confident that our System 64 will enhance the training capabilities of the Indiana Fire and Public Safety Academy, providing firefighters with the best tools to hone their skills and improve public safety.

Please do not hesitate to contact us should you have any questions or require further information regarding our proposal. We look forward to the opportunity to work with the Indiana Department of Homeland Security and contribute to the safety and preparedness of Indiana's firefighters.

X
