Conclusion:

Combined Paternity Index: 6,294,290,779,751 to 1

Probability of Paternity: 99.99% (Prior Probability = 0.5)

The result of the genetic test is as stated in this report. The testing in this case is sufficiently extensive to exclude 99.99% of alleged fathers who are not the biological father.

The alleged father, Robert Jones, cannot be excluded as the biological father of the child, Joey Jones, since they share genetic markers. Using the above systems, the probability of paternity is 99.99%, as compared to an untested, unrelated man of the Caucasian population.

I, the undersigned Director, upon being duly sworn on oath, do depose and state that I read the foregoing report on the analysis of specimens from the above named individuals, signed by myself, and under penalties for perjury it is my belief that the facts and results therein are true and correct.
