

Empower Your Team to Embrace Their Values and Vision, Transform Them Into Action, and Advance Your Mission

You know that your organization has the power to create meaningful change, yet you wonder – *are you truly optimizing the impact that you can have?* By investing in your team, you invest in your mission. Develop your leaders into true change agents for your organization.

WE BELIEVE leadership is not defined by your title, but by your actions. Your values inform how you lead, creating an example for others to follow. Leaders who intentionally nurture an environment of mutual trust and respect tend to drive stronger employee performance, leading to exceptional client service—and ultimately —improved ability to advance your mission.

3 PHASE APPROACH Our unique 3 phase approach embraces a variety of formats and strategies designed to keep participants engaged both during – and well beyond – in-person retreat sessions. Experiential activities, information sessions, hands-on projects, and team collaboration are combined with continued peer networking and 1-on-1 coaching and support, to ensure that participants and organizations receive lasting impact from the experience.

Throughout the 3-phased, multi-retreat approach - participants will:

Level 1) Raise awareness of personal strengths, mindsets, and beliefs and how they align with passion and purpose; learn to collaborate with and rely on others for collective impact

Level 2) Develop into growth-minded leaders and high-level influencers; tackle a project tailored to the needs of advancing your specific organization; network and collaborate with fellow influencers; post-retreat add-on opportunities for continued support

Level 3) Learn to live from a context of commitment, responsibility, and contribution both personally and professionally. Participants and organizations receive lasting impact from the experience

I discovered that I am the one getting in my own way... and that I can harness my bravery and translate it to others to break through.
