The Executive Summary must briefly summarize the Respondent's ability to supply the requested products and/or services that meet the requirements defined in Section 2.4 of this solicitation.

The Milliman team for this project is comprised of behavioral health experts with unmatched knowledge and experience with the entire range of issues in the mental health and addiction space and who understand the challenges faced by states in this present moment. This knowledge and experience include a deep familiarity with issues pertaining to topics such as coverage, access and availability, workforce, and different treatment and delivery models.

Milliman has partnered on projects with states across the country as they attempt to increase the availability of and access to mental health and addiction treatment services for their residents. As an example, we are currently working with a state in designing and planning implementation of a statewide CCBHC care delivery model. The project includes actuarial analysis to develop sound dates and estimate budget impact, policy research to identify a path to secure appropriate authorities, and stakeholder engagement activities to ensure mental health and addiction treatment providers, and other important stakeholders are brought in and informed ahead of implementation.

Furthermore – and of particular relevance to this project – our team includes attorneys with legal expertise and abundant experience with state legislative and administrative does. Multiple members of our team have direct experience working with the Indiana state legislature and several state agencies both during and prior to their tenure at Milliman.
