Cost Assumptions, Conditions and Constraints

The bid assumes that all pricing is per container per service. Shredding and Storage Unlimited, LLC will empty and charge for service of each bin placed on the requested service schedule regardless of how full the container is unless the container is requested to not be serviced by the State or Agency, “held out”, or clearly indicated that it should not be shredded. Shredding and Storage Unlimited, LLC employees will not be made to wait an unreasonable amount of time in order to gain access to container(s) if service is performed during normal business hours of Agency.
