Cost Assumptions, Conditions and Constraints

The Respondent should list and describe as part of its Cost Proposal any special cost assumptions, conditions, and/or constraints relative to, or which impact, the prices presented on the Cost Schedules. It is of particular importance to describe any assumptions made by the Respondent in the development of the Respondent's Technical Proposal that have a material impact on price. It is in the best interest of the Respondent to make explicit the assumptions, conditions, and/or constraints that underlie the values presented on the Cost Schedules. Assumptions, conditions, or constraints that conflict with the solicitation requirements is not acceptable. Please compose and return this document in a PDF format, labeled as "Cost Assumptions, Conditions and Constraints".

The licensing cost per exam is an all-inclusive, total cost. It factors in PSI's adherence to and provision of all requirements under the Summary Scope of Work in Section 1.4 of the RFP.
