

Executive Summary

RFS 25-80876

This letter is on behalf of 1Voice and with authorization of the Board of Directors with intent to summarize our ability and desire as a certified recovery community organization to operate as a regional recovery hub in alignment with the State's expectations outlined in the RFS. 1Voice has been the sole recovery hub within region 7 for the last six years, and has worked towards all accreditations necessary to obtain certification as a certified recovery community organization by the State of Indiana.

1Voice has provided direct peer recovery services to the communities of this region and has developed valuable partnerships with other agencies, local government and other programs in this region including the IRACS program, jails, emergency departments and local Opioid treatment providers. In the facilitation of these services 1Voice has developed the leadership and internal supervision and support necessary to be effective as a regional recovery hub within the State of Indiana.

Our organization is confident that after review of this proposal and evaluation of our organization that we will be able to represent this region as the regional hub and continue to deliver and expand the effectiveness of the person-centered peer recovery services to the individuals of our region.

The principal contact for this proposal and all contact information will be listed below.

With Regard,

Aaron Spaulding
