

### **Cost Proposal Narrative**

The costs associated with each of the deliverables are inclusive of all costs associated with providing consulting services, as loaded against each team members' rate. The comprehensive, mixed methods evaluation activities described in the Technical Proposal will be executed by staff members at four organizational levels: Director, Project Manager, Project Lead, and Project Assistant. This team will partner with IDOH leaders and community partners to conduct key informant interviews, data collection and analysis, community and partner surveys, document analysis, and process documentation as detailed in the PY5 Evaluation Plans for the IN-BCCP and ICCCP, in addition to project management, communication, and coordination activities.
