Dear Mr. Brown,

Circle City Clubhouse is dedicated to fulfilling our mission to afford people whose lives have been drastically disrupted by mental illness the opportunity to recover meaningful and productive lives through reintegration with the workplace and the community. We have worked closely with Adult and Child Health (A&C) over the last several years through a collaboration agreement to provide the highest quality of support for those with behavioral health needs. Circle City Clubhouse acknowledges A&C's request to be a CCBHC demonstration site and strongly supports their efforts to make this a reality. We believe the services they provide to Central Indiana residents are vital for the communities we serve. We are writing this letter of support to confirm our long-term collaboration towards recovery.

Circle City Clubhouse is an organization where individuals with lived experience and mental health professionals work together to support recovery. Our organization relies on strong partnerships to connect with vulnerable individuals and families in need. We currently partner with A&C as a clubhouse service provider. A&C offers a comprehensive array of services assisting individuals in their recovery journey. We have seen firsthand the positive impact that A&C has made in the community, and we are proud of the work they have done through their CCBHC projects including improving access to care and ensuring care coordination to connect individuals to navigation services and financial services.

Circle City Clubhouse is honored to provide this letter of support for A&C's application for the CCBHC Demonstration Program. We support their move in this direction and look forward to continued partnership. We strongly believe this project will benefit the community, both in Marion and Johnson Counties.

Thank you for your consideration,
