INDIANA

TO: Meghan Creech

DATE: 11/01/2023

Dear Meghan,

Congratulations on achieving the Behavioral Health Center Three Star Designation from Star Behavioral Health Providers! This distinction recognizes your organization's service and commitment to service members, veterans, and their family members across the state of Indiana. Your Three Star Designation will be valid for two years beginning 11/1/2022 and expiring on 11/1/2024.

Your center information will be placed on the center designation section of the Star Behavioral Health Provider website. In addition, you will receive center designation materials to post in your facilities.

Specific criteria for staff training, data, and outcomes will require yearly updates. We will contact you two months before your one-year anniversary with submission details.

Additionally, after two years, you will need to reverify all requirements to continue your current designation level. If you would like to apply for a higher designation at any point during this time, you will need to submit additional information for review and approval.

On behalf of all of us with Star Behavioral Health Providers, I sincerely appreciate your hard work and dedication in achieving this distinction. Your organization is among the best in Indiana at serving the military-connected population.

Respectfully,

Blair McKissock
