

TURNING POINT
a System of Care

November 1, 2023

To Whom it May Concern,

I am writing this letter of support for 4C Health's application to be selected as a participant in the Indiana Certified Community Behavioral Health Center (CCBHC) demonstration grant. 4C Health has been a solid partner in providing comprehensive behavioral health services in our area and we have enjoyed a strong relationship in collaborative care where we offer peer recovery support and navigation services in the Howard County region. We furthermore have been able to support mutual clients through our Recovery Stabilization Center that offers 24/7 intake and admissions as well as serves as a crisis receiving and stabilization facility. Because of our strong partnership in working together, Turning Point is also committed to becoming a more formal Designated Collaborating Organization (DCO) for 4C Health for substance use disorder relative to peer recovery services and substance use disorder detoxification services. Turning Point remains open to expand DCO related services with 4C Health within the CCBHC continuum and within the CCBHC service area.

Turning Point is a private non-profit 501C3 organization that was incorporated in 2018 and functions as a Recovery Community Organization. Specifically, Turning Point supports individuals and families live their best life through a variety of services including outpatient clinical services including medication assisted treatment, 3.5 ASAM intensive residential and detox support, peer-coaching & navigation support, recovery support groups, Recovery Café programming and 24/7 crisis support. Effectively, we strive to assist individuals to choose, live, and give recovery and have no wrong door in accessing our services. We enthusiastically look forward to partnering with 4C Health as a DCO in Indiana's efforts to establish a CCBHC network to take care of Hoosiers.

Respectfully,

Matt Oliver, PhD
CEO
