

# Procurement Submission Form

1/17/2024 2:04:17 PM

## Introduction

---

Response submission is a two (2) part process with two (2) required deadlines. Refer to the sourcing event documents for submission instructions and deadlines. This Submission Form is the required first deadline. The “completed” date and time provided in the receipt notification for this Submission Form is considered the official date and time stamp of the response. The Submission Form and required attachments received after the expired date and Eastern time will be disqualified and removed from further consideration. In the event multiple Submission Forms are received, the submission with the date and time stamp closest to the due date and time before the expiration will proceed for consideration.
