SNAP EMPLOYMENT AND TRAINING (E&T) PROGRAM ACTIVITY REPORT (FNS-583) GENERAL INSTRUCTIONS

This report covers SNAP E&T program activities during the report period. Each State agency must submit a consolidated State level report to the Food and Nutrition Service (FNS). The State agency shall submit its data for this report electronically via the Food Programs Reporting System (FPRS) no later than the 45th day following the end of the report period. For the 2nd, 3rd and 4th quarters, add the quarterly total to the total from the previous quarter(s) and list cumulative total under "**FISCAL YEAR TO DATE**". State agencies must retain records of the data and methods used to report for audit purposes.

NOTE: Items 3 and 4 below require a monthly count of component participation. An individual who participates each month must be counted 12 times during the fiscal year. In Item 7 (component participation), that same individual should be counted once for each component in which he/she participated. For example, an ABAWD participated the entire fiscal year - 6 months in a workfare component and 6 months in an educational – vocational training program. That ABAWD must be counted once each month in Item 3 (monthly participation). At the end of the fiscal year the same ABAWD must be counted twice in Item 7 (component participation) - once in the workfare component and once in the educational – vocational training component. However, in Item 8 (individual participation) count the individual only once for the fiscal year.

ITEM 1 (Work Registrants on Oct. 1) - Record the total number of work registrants in the State on October 1 of the new fiscal year. This is an unduplicated count of work registrants and is reported only in the 1st quarter of the fiscal year. **Do not** count these registrants again during the fiscal year.

ITEM 2 (Monthly New Work Registrants) - Record the number of individuals registered for work each month, beginning with October. This is an unduplicated count. Exclude work registrants that were counted in Item 1. **Count** individuals as work registrants only once during the fiscal year.

ITEM 3 (Monthly count of ABAWD applicants/recipients subject to time limits participating in qualifying components) - Record the number of able-bodied adults without dependents (ABAWDs), both applicants and recipients, **subject to the 3-month SNAP benefits time limit** that participated in **qualifying** SNAP E&T activities each month of the report period. Qualifying E&T activities include education, training, work experience, or workfare components that fulfill the ABAWD work requirement, in accordance with section 6(o)(2) of the Food and Nutrition Act. Count each ABAWD only once per month. This is an unduplicated count in the month. For example, an ABAWD may participate in two qualifying activities in one month and would only be counted once in the month.

ITEM 4 (Monthly component participation) - Record the number of all other applicants and recipients who participated in an E&T activity each month of the report period. This would include ABAWDs not subject to time limits, as well as ABAWDs subject to the 3 mo. time limits who participated in non-qualifying activities. Count each participant once per month. Participants included in Item 3 should not be included again in Item 4 within the same month. This is an unduplicated count within the month.

ITEM 5 (Discretionary Exemption Usage) - Record the number of ABAWD case months used each month of the report period under the State agency's discretionary exemption allowance, in accordance with section 6(o)(6) of the Food and Nutrition Act. One exemption covers one ABAWD for one month of benefits. Count each exemption once per month.

ITEM 6 (Case Management Services Participation, optional) – On the 4th quarter report, State agencies may use this section to report on case management services provided during the fiscal year. If States choose to report on case management services, State agencies should list the case management services provided during the fiscal year and record the number of ABAWDs and Non-ABAWDs who received each type of case management services. Case management services can include intake orientations, comprehensive intake assessments, individualized service plans, progress monitoring, service coordination or other. If other is used a description of the service should be entered that aligns with the case management services included in the State's E&T State Plan. If a State agency does not track case management by specific activities, such as intake orientations, they may use the category "CMS – General". States should only count participants as receiving case management services once in a fiscal year.

ITEM 7 (Component Participation) - On the 4th quarter report, list the E&T components offered during the fiscal year and record the number of ABAWDs and non-ABAWDs who participated in each. Count each participant in each component only once. However, participants may be reported across multiple components. For example, a participant in supervised job search and in workfare would be counted under each component. A list of the components with acronyms as reflected in the Food Program Reporting System (FPRS) is shown below. State agencies should be aware that if "Other" is used FPRS will require that a description be provided that aligns with the component in the State's E&T State Plan.

NOTE: Participants should be counted as an ABAWD under Item 7 even if they are covered by a waiver or exemption

ITEM 8 (Individual Participation) - On the 4th quarter report, record the number of ABAWDs and non-ABAWDs who participated in the E&T Program during the fiscal year. An individual is counted as an E&T participant when they commence at least one part of an E&T program, including orientation, assessment, case management or a component. This is an unduplicated count of participants. Participant's status is based on their **initial status for the fiscal year. For example, an individual was an ABAWD when they began participating in November and in February their status changed to a Non-ABAWD. That individual would only be counted once as an ABAWD. NOTE: Participants should be counted as an ABAWD under Item 8 even if they are covered by a waiver or exemption.**

Note: Item 9 to 12 are only reported on the 4th quarter report by State agencies operating a mandatory E&T program.

ITEM 9 – On the 4th quarter report, record the number of SNAP applicants and recipients who were required to participate in E&T by the State agency during the fiscal year. Count each individual each time they were required to participate for a certification cycle. For example, an individual may be required to participate in E&T when they are certified for benefits in November. That individual may lose eligibility in February, re-apply in June when they are again required to participate in E&T. That individual would be counted twice – once for November and once for June. Additionally, if an individual is required to participate in E&T at certification in October and is again required to participate at recertification in April, that individual would be counted twice – once for October and again in April.

ITEM 10 - Of the individuals reported on item 9, record the number of SNAP applicants and recipients who began participation in an E&T program. An E&T participant begins to participate in an E&T program when the participant commences at least one part of an E&T program, including orientation, assessment, case management or a component. Count each individual every time they begin to participate in an E&T program for every certification cycle. FNS considers individuals recertified for SNAP as beginning an E&T program again, even if there has been no lapse in E&T participation between initial certification and recertification. Examples: If an individual is required to participate in E&T in November and attends an orientation that month, but later loses eligibility and applies for SNAP in June when they are again required to participate in E&T and attends a second orientation in June, that individual would be counted twice - once in November and again in June. Additionally, if an individual is required to participate in E&T at certification in October when they attend an orientation and is still participating in E&T at recertification in April, that individual would be counted twice - once for October and again in April.

ITEM 11 - Of the individuals reported on item 9, record the number of SNAP applicants and recipients who began participation in an E&T component. An E&T participant begins to participate in an E&T component when the participant commences the first activity in the E&T component. Count each individual each time they begin to participate in an E&T component for every certification cycle. FNS considers individuals recertified for SNAP as beginning an E&T component again, even if there has been no lapse in E&T participation between initial certification and recertification. Examples: If an individual is required to participate in E&T in November and starts a component that month, but later loses eligibility and applies for SNAP in June when they are again required to participate in E&T and participates in a component in June, that individual would be counted twice - once in November and again in June. Additionally, if an individual is required to participate in E&T at certification in October when they start an E&T component and is still participating in an E&T component at recertification in April, that individual would be counted twice - once for October and again in April.

ITEM 12 – Record the number of mandatory E&T participants who were determined ineligible **for SNAP due to noncompliance with mandatory** E&T requirements. Count each individual every time they are found ineligible for failure to comply with E&T requirements. For example, an individual may be required to participate in E&T when they are certified for benefits in November. That individual may lose eligibility for failure to comply in February, but re-apply in June when they are again required to participate in E&T, and again are found ineligible for failure to comply. That individual would be counted twice – once for November and once for June.
