## **Summary of Clarifications**

Section 1.4.2.1 (Categories) of the RFP 26-85525 Main Document lists “required manufacturers” for door hardware, door closures, and exit devices. While the State is interested in reviewing proposals for these specific manufacturers’ products, the State is also interested in proposals for manufacturers and systems not specifically listed. These solutions are captured in the “All other door hardware products” category and may be detailed further in the Technical Proposal, Executive Summary, and/or Cost Summary. Respondents are encouraged to include proposals regardless of specific manufacturer by detailing how the solution meets the State’s needs and provides the best possible value. All proposals submitted for products in the “All other door hardware products” category will be fairly evaluated by the State.
