- *Your choice of hundreds of ball caps either curved or flat brim*
- Underside of cap looks completely normal
- Completely self contained
- Simple one button record/stop operation
- 1080p Full HD Video Resolution
- Time Date Stamp
- Audio On/Off switchable
- 8 hours of storage on removable 64GB memory
- 8 hours of operation time on fully charged battery
- No Special Software Required

System Includes: Choice of Ball Cap DVR, USB Cable, 32GB microSD card, Charger and Carrying/protector case

UC HOODIE COVERT HD VIDEO HOODIE WITH HIGH GAIN AUDIO -- Line 8

This new technology enables the agent to record up to 8 hours of highest quality audio and video on a full charge with time date stamp. Each hoodie is customized thematically or geographically for all agencies. ex. the agency can choose from various MLB, NFL, NBA, and Collegiate teams in their area. as well as corporations ex: John Deere, Harley Davidson, etc. Each hoodie is individually assembled in our in-house facility for the utmost quality control. Equal or better than Saul Mineroff Electronics
#SME-UC

How it works. Each HOODIE has an extremely light weight high quality video recorder board with removable memory (MicroSD card) and High Gain microphone built into the unit. The low profile, virtually undetectable recording device is expertly concealed behind each unit for the utmost concealability. The agent simply turns on the recorder with one push of a miniaturized button hidden behind the hoodie, and they are now recording high quality video (1280 x 720 30fps) with high gain intelligible audio. USB plug and play (no special software needed) makes this the perfect investigative covert recorder system for most any situation.

When ordering, specify size (ex. M, L, XL, XXL) and desired style.

USB DAY/NIGHT CAR CHARGER DVR - Line 11

The **USB DAY/NIGHT Hidden Car Camera** is the perfect 2-in-1 device: it functions as an everyday car charger and a hidden camera DVR with night vision. It pulls double duty by capturing discreet, law enforcement grade 1080p HD video footage. This can be used for-around-the clock vehicle security or investigative needs. The unit can be used for CI meetings, undercover operations, and vehicle security. This hidden camera blends into the vehicle seamlessly as a common vehicle accessory -- no one will suspect this in-car hidden camera functions as anything other than a car charger.

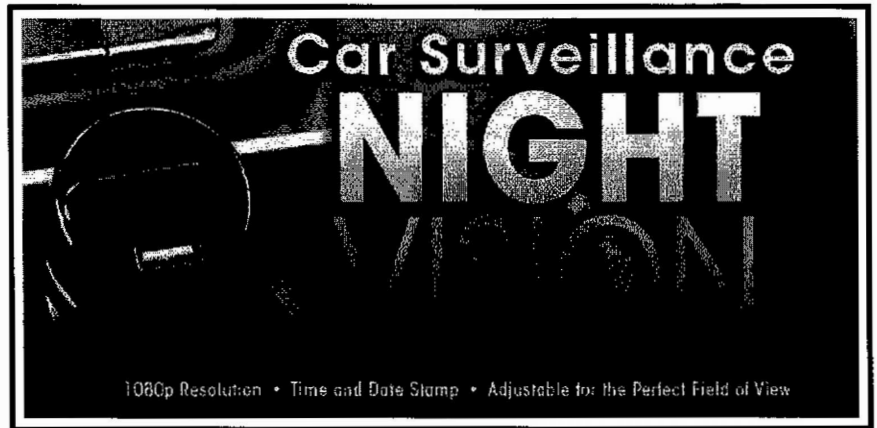

Equal or better than Saul Mineroff Electronics
#SME-UC USB DAY/NIGHT CAR CHARGER DVR

USB Charger

The USB port outputs enough power to use as a real car charger and it charges any device that uses a USB cord to charge.

Camera Angles

When designing this camera we took suggestions from real life undercover officers who wanted to capture the video inside the vehicle. The rotating head of the 1080p Covert Hidden Car Camera DVR with IR's offers a slight right to left and up and down rotation to give you an adjustable camera angle.

How it Works:

Plug it into the car lighter adapter port and adjust the camera direction with the rotating base. Rotate cover to expose onboard controls, insert memory card and with one flip of the switch the unit is operational and ready to capture day or night 1080p HD Law Enforcement quality video footage.

Features:

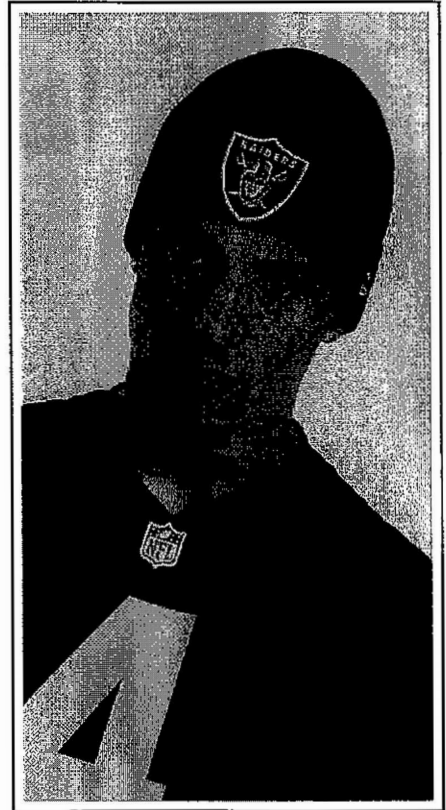

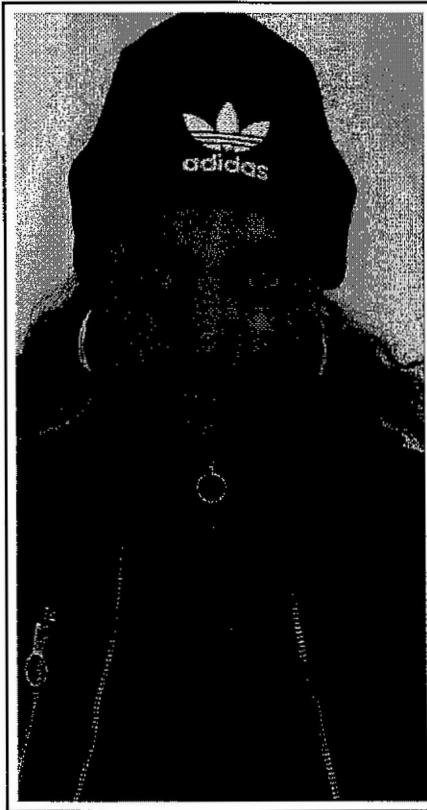

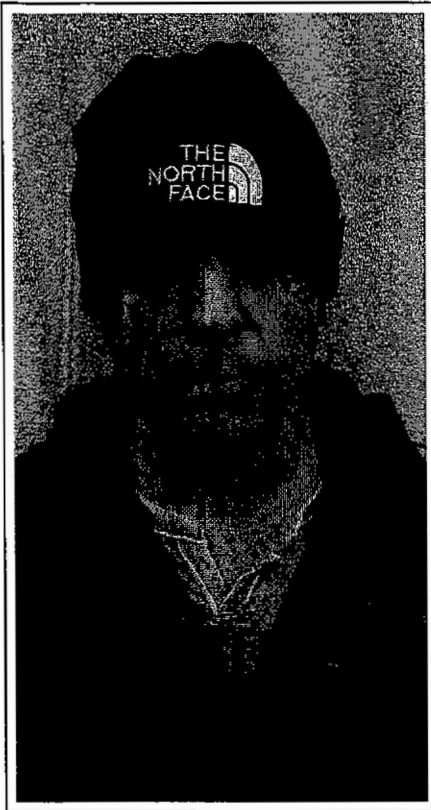

- 1080p HD performance
- Built-in DVR with IR-Night Vision (no glow)
- Day time & Night Time Recording
- 1 Functioning USB port
- **One-touch on and off**
- **Enhanced audio**
- Plug and play operation
- Easy to adjust the camera direction with the rotating head
- Time and Date stamp on video
- Supports up to 32GB memory card

Covert Wearable DVR Systems

UC COVERT HD VIDEO RECORDER -- Line 2

BEANIE DVR includes a miniaturized high definition camera, intelligible SME microphone, DVR and a rechargeable low-profile 4 hour battery. This updated version utilizes the highest resolution DVR and is extremely easy to use (now with one push button operation). The unit records on up to a 64GB micro SD memory card for 8 hours of 1080p full HD Video. Equal or better than Saul Mineroff Electronics
#SME-UC beanie covert HD video recorder

Features:

- Your choice of Beanie Cap (dozens to choose from)
- Underside of cap looks completely normal
- Completely self-contained
- Simple one button record/stop operation
- 1080p Full HD Video Resolution
- Time Date Stamp
- Audio On/Off switchable
- 8 hours of storage on removable 64GB memory
- 4 hours of operation time on fully charged battery
- No Special Software Required

System Includes: Choice of Beanie DVR, USB Cable, 64GB microSD card, Charger and Carrying/protector case

COVERT DVR WITH HIGH GAIN AUDIO - Line 7

Covert DVR enables the agent to record up to four hours of highest quality audio and video with embedded time/date stamp on a full charge. Each

How it works: The covert bottle has an extremely light weight HD video recorder with built-in 64GB memory and High Gain microphone (with Audio On/Off Switch). When the base of the bottle is pulled apart a hidden area that houses the recording board will be revealed. The agent simply turns on the recorder with one push of a miniaturized button. Both the bottom and top portion of the bottle can be filled with liquid. The hidden camera and high gain microphone element is hidden behind the label. The user can safely drink out of the bottle.

Equal or better than Saul Mineroff Electronics #SME-UC BOTTLE COVERT DVR W/HIGH GAIN AUDIO

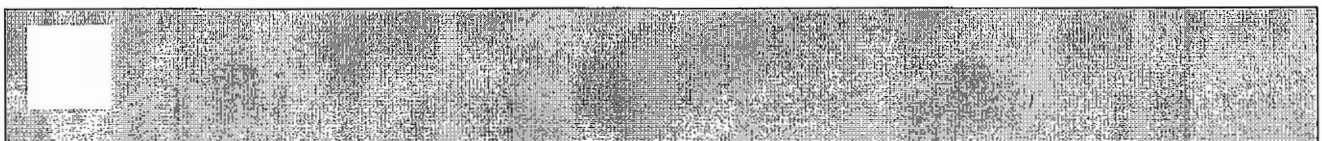

Great for setting on a table during meetings, outdoor recordings, restaurant meetings

System Includes: Choice of Bottle (Aquafina or Mtn Dew), USB Cable, Charger and Storage Case

DELUXE TASK FORCE KIT -- Line 3

Equal or better than Saul Mineroff Electronics #SME-UC DTFK

What's Included?

COVERT Wi-Fi COFFEE CUP LID DVR

Coffee Cup Lid DVR with Wi-Fi connection enables the agent to record up to 3½ hours continuously. The lid can be put on any standard to-go coffee or tea cup, to camouflage this concealed camera as a beverage from the local coffee shop. In operations use it as an on-the-go or a leave-behind and have operatives reviewing 1080p continuous footage from another room while recording on the unit itself.

DAY/NIGHT Wi-Fi CELLPHONE CAR MOUNT HOLDER DVR

This unit is disguised as a hands-free smartphone holder. Our night vision hidden camera Wi-Fi DVR is an intelligently-designed system for covert car surveillance. 360° adjustable view allows you to adjust to get the best view of your passengers. Night vision allows you to keep a clear eye around the clock. This is a must-have car accessory for undercover vehicles. Enable the Wi-Fi feature to view the camera feed on your phone to make sure you have a good line of sight to record everything needed in the frame. This versatile technology allows one to take surveillance into any car you're riding. Motion activation technology helps when you're in high crime areas -- you can set the recording to this type should a break-in occur.

DISGUISED POWER BANK DVR WITH Wi-Fi

Power Bank Wi-Fi Hidden Camera with DVR looks and functions just like a normal battery pack you would use to charge your electronic devices. The built-in 2 Megapixel camera provides an angle of view of 78 degrees while the Wi-Fi capability ensures you'll be able to control and view live and recorded video virtually anywhere. The internal battery pack will give you 6.5 hours of use. And the high-resolution camera and DVR records in 1920 X 1080, 1280 X 720, 848 X 480 and has 3 recording modes (Auto / Manual / Motion Activated).

USB DAY/NIGHT CAR CHARGER DVR

USB DAY/NIGHT Hidden Car Camera is the perfect 2-in-1 device; it functions as an everyday car charger and a hidden camera DVR with night vision. The unit can be used for CI meetings, undercover operations, and vehicle security. This hidden camera blends into the vehicle seamlessly as a common vehicle accessory, no one will suspect this in-car hidden camera functions as anything other than a car charger. The rotating head of the 1080p Covert Hidden Car Camera DVR with IR's offers a slight right to left and up and down rotation to give you an adjustable camera angle. The USB port outputs enough power to use as a real car charger and it charges any device that uses a USB cord to charge.

COVERT AUDIO RECORDING KEY

Car Key is designed for covert, portable audio surveillance. It looks exactly like a normal car key, so you can record audio covertly with complete confidence. Includes a high gain microphone, the Audio Recording Key is known for its excellent recording quality. It captures voices with great intelligibility clearly within a 30-foot diameter. You don't have to angle the device towards the source of the sound. This compact device can store up to 18 hours of audio, which is perfect for long recording sessions. You don't have to worry about constantly having to transfer your files.

COVERT 4K VIDEO KEYFOB DVR WITH Wi-Fi

KEYFOB revolutionizes covert surveillance, merging high-tech recording within a standard key fob design. Ideal for law enforcement, this camera ensures operations remain unnoticed. Its unique P2P Wi-Fi capability allows for instant adjustments and live reviews, ensuring every operation is executed flawlessly. Standout features include silent vibration signals for discreet operation and multiple video resolutions for every scenario.

BLUETOOTH SPEAKER DVR WITH Wi-Fi AND IP MONITORING A stand-alone system with instant and easy covert audio & video. The system has built-in Wi-Fi module and IP monitoring for Live Audio and Video Remote viewing anywhere in the world on a smartphone or tablet. The unit looks and works like a normal Bluetooth Speaker. It will play music from your smartphone. The unit records full 1920 x 1080 @ 30fps HD Video with enhanced audio on removable MicroSD Cards. It will capture subjects and other details clearly. It can even be set to motion detection. The agent can also view and live stream surveillance videos using his/her smartphone or tablet with the included app.

OAKLEY COVERT VIDEO GLASSES DVR

Oakley Glasses is a self-contained covert video system built into a pair of high grade eyeglass frame. The unit features 1280 x 720p Full HD resolution with enhanced audio and is totally covert. The user can feel comfortable in close proximity of the target's face. With the full HD 1280 x 720p resolution, you can obtain clear and crisp video results which are evidence-ready. User can have professionally installed prescription lenses as per their individual need. When ordering please specify dark or clear lenses.

DISGUISED SMARTWATCH DVR WITH Wi-Fi

The SMARTWATCH offers excellent video and audio quality while remaining very straightforward to set up and operate. Activating the watch is a single-button operation. The watch itself provides the time & date including momentary icons on the screen to indicate recording is active. With the Wi-Fi connectivity, you can livestream the video content and have full control over the device.

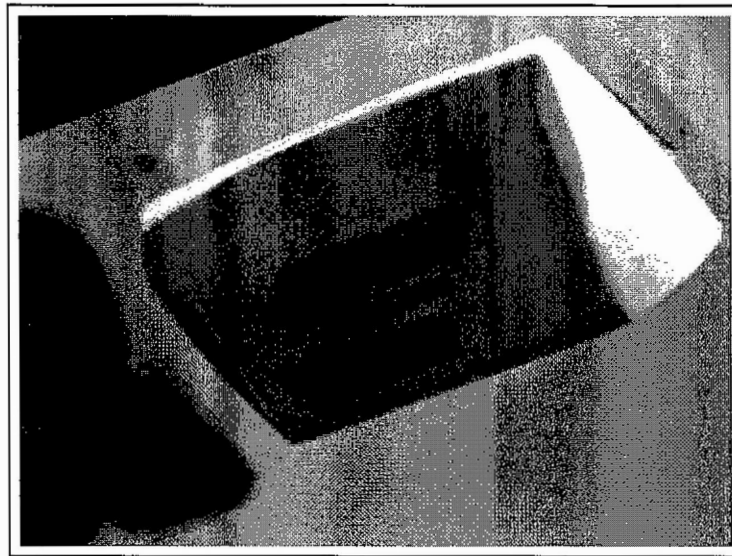

All nine DVRs include proper chargers, download cables, memory cards and operating manuals stored in a deluxe carrying/storage case as shown.

EZPASS COVERT VIDEO SYSTEM - Line 4

Equal or better than Saul Mineroff Electronics #SME-UC EXPASS COVERT VIDEO SYSTEM

Found in most vehicles, This new covert recording device for vehicles. With one-button recording, High Quality Video and Audio with **embedded time/date stamping** are recorded onto 32 GB of internal memory.
