INTRODUCTION

The 2020 annual juvenile detention facility evaluations conducted by the IDOC, Division of Youth Services would normally consist of three on-site facility inspections; staff and youth interviews; and an audit of the state detention standards. Due to the covid-19 global pandemic, we conducted one on-site facility inspection, along with staff and youth interviews, an audit of the state detention standards, and conducted testing on the candlelight levels and ventilation in accordance to the standards requirement.

While the proposed Indiana Juvenile Detention Facility Standards are in the process of being promulgated, Detention Facilities had the option to be audited on three hundred one (301) current detention standards or the corresponding two hundred and thirty-seven (237) proposed juvenile detention facility standards.

Marion County Juvenile Detention Center chose to be audited on the two hundred and thirtyseven (237) proposed juvenile detention facility standards in 2020, for their 24th annual detention inspection. Of the two hundred and thirty-seven (237) standards audited, sixteen (16) standards require mandatory compliance and the remaining two hundred and twenty-one (221) are recommended standards. Compliance with 100% of the mandatory standards and 90% of the recommended standards is required to attain "Full Compliance." Again, Centers that chose to be audited on the proposed detention standards were only required to meet the expectation of the current detention standards. Marion County Juvenile Detention Center chose to also provide documentation on the extra standards with exclusively new requirements. The breakdown of each audit listed below is only reflective of the current standards.

Auditors:	Rachel McCaffrey, Terrie Decker, and Kristin Herrmann (Inspection) Kristin Herrmann (Files)
Facility Tour:	The facility tour was conducted by Mary Dozier. This inspection
	focused on mandatory standards. Areas such as medical, janitorial
	closet, kitchen, visitation rooms, search areas, private interview rooms,
	youth rooms, youth living areas, personal and property areas,
	mechanical and safety areas were inspected. It was ensured that staff
	had access to the Emergency Manual.
Youth Interviews:	Two youth were interviewed, one male and one female.
Youth Responses:	One youth said that they felt safe and that the facility was cold at night but otherwise fine. One youth had issues with a fellow youth and felt uncomfortable with them, but it was being handled by staff. They then said that their room was dirty and only the day room gets cleaned. Both youths said that fire drills had been conducted. Neither had any suggestions for the facility.
Staff Interviews:	Two line staff were interviewed with one having control experience.
Staff Responses:	Both staff described what to do during an emergency evacuation. Control will open the doors and the kids will be lined up and taken outside. They said that there are mechanical restraints, but they are used last. Physical restraint is used before mechanical, but each staff can cuff because of training they received. They said they both received medical and mental health training and receive it annually. When dealing with a youth detoxification they said the youth is kept away from the general population until medically cleared. 8-3-52, 8-9-5, and 8-9-9
