INTRODUCTION

The 2021 annual juvenile detention facility evaluations conducted by the IDOC, Division of Youth Services included two on-site facility inspections; staff and youth interviews; and an audit of the state detention standards.

While the proposed Indiana Juvenile Detention Facility Standards are in the process of being promulgated, Detention Facilities had the option to be audited on three hundred one (301) current detention standards or the corresponding two hundred and thirty-seven (237) proposed juvenile detention facility standards.

Marion County Juvenile Detention Center chose to be audited on the two hundred and thirty-seven (237) proposed juvenile detention facility standards in 2021, for their 25th annual detention inspection. Of the two hundred and thirty-seven (237) standards audited, sixteen (16) standards require mandatory compliance and the remaining two hundred and twenty-one (221) are recommended standards. Compliance with 100% of the mandatory standards and 90% of the recommended standards is required to attain "Full Compliance." Again, Centers that chose to be audited on the proposed detention standards were only required to meet the expectation of the current detention standards. Marion County Juvenile Detention Center chose to also provide documentation on the extra standards with exclusively new requirements. The breakdown of each audit listed below is only reflective of the current standards.
