XII. **IMPOSING AND ENFORCING SPECIAL STIPULATIONS:**

The Indiana Parole Board may place special stipulations on a Parolee as a condition of Parole either prior to or following release to Parole. These stipulations are intended to address an individual Parolee’s risks to re-offend. Such stipulations may require a Parolee to participate in mental health or substance abuse treatment following release. Special Parole Board stipulations which restrict access to children are provided to all sex offenders prior to release by a facility release coordinator. The Board will order **PAROLE STIPULATIONS FOR SEX OFFENDERS** (SF 49108) which require a Parolee to attend community based treatment programs, submit to polygraph monitoring, participate in GPS monitoring, and prohibit viewing or possession of pornographic materials and/or access to the internet on all sex offenders released to Parole supervision. Based on a Parolee’s behavior, special stipulations may be added or amended upon recommendation of the supervising Parole Agent. Any violation of a special Parole stipulation is grounds for Parole revocation.

XIII. **SANCTIONS AND REVOCATION:**

Assisting the Indiana Parole Board in administering Parole sanctions is a critical function for Parole staff. Community-based intermediate sanctions shall be developed by each Parole District to deal with technical Parole violations. The most common technical violations committed by Parolees pertain to the use of drugs and/or alcohol. Parolees who violate these restrictions may require closer supervision, frequent drug testing, and/or community-based substance abuse treatment. If the Parolee continues to commit Parole violations, the Parolee shall be considered for placement in a more restrictive environment through established short term warrant intervention processes such as programs operated by a local detention facility or community corrections partner.

Offenders who successfully complete an intermediate sanctions program within the community shall be returned to regular Parole status. If the Parolee does not successfully complete the required program, the Parole Board shall be notified by the supervising district. The Parole Board shall then decide if additional sanctions or re-incarceration are required.

When a Parolee commits a serious violation of Parole such as a criminal offense, delinquency, or multiple technical violations, the Parole Board is responsible for imposing the appropriate sanction(s). Following notification of a Parole violation via a Parole Violation Report, the Parole Board may issue a Parole Violation Warrant requiring the Parolee to remain in custody until the disposition of any criminal charges. Once the warrant is served by the Parole Agent or local law enforcement, the Parolee is entitled to a preliminary revocation hearing within ten
ORGANIZATION AND DELIVERY OF PAROLE SERVICES

(10) days of service of the warrant. The Parolee may waive this hearing pending disposition of any criminal charges.

When a Parolee’s criminal charges are disposed of in court, the Parolee shall be granted a final revocation of Parole hearing within sixty (60) days of becoming available to the Parole Board. Per Indiana statute, Parole revocation is mandatory when a Parolee is convicted of a new Class A or B felony offense (if the offense is committed prior to July 1, 2014), or a Level 1, 2, 3, or 4 Felony (if the offense was committed on or after July 1, 2014).

When Parolees are charged only with a technical violation, a misdemeanor, or a Class C or D Felony (if offense was committed prior to July 1, 2014), or Levels 5 or 6 (if offense was committed on or after July 1, 2014) with no new IDOC time the Parole Board may:

A. Find the Parolee guilty, re-incarcerate the Parolee, and set balance of time;

B. Find the Parolee guilty, reinstate (begin a new period of Parole) him/her to Parole, and may impose additional special Parole stipulations;

C. Find the Parolee guilty and continue him/her on Parole under the original period of Parole and elect to impose additional Parole stipulations; or

D. Find the Parolee not guilty and immediately release him/her from custody, if applicable and continue him/her on Parole.

XIV. SUPERVISION AND DISCHARGE:

Pursuant to Indiana law, the presumptive length of Parole supervision is two (2) years. Parolees who were convicted of offenses committed prior to July 1, 1991, or Parolees on Parole for the first time, not serving a sentence for a crime against a person pursuant to IC 35-50-1-2 or IC 11-8-8-4.5 and who have clear institutional conduct for the last 180 days prior to their release date have a presumptive length of Parole supervision of one (1) year. The Parole term may be extended by the Parole Board in instances where the offender commits a violation of Parole and a Parole Violation Warrant is issued prior to the completion of the one (1) or two (2) year obligation. However, the Parolee shall be discharged upon the expiration of his/her sentence.

Exceptions to the presumptive two (2) years Parole supervision period apply to Parolees convicted of certain sex offenses. Parolees convicted of certain sex offenses committed after June 30, 1994, may be supervised on Parole for up to ten (10) years or Life. However, the Parolee shall be discharged upon the expiration of his/her sentence except for lifetime Parolees. Additionally, Parolees convicted...
of a life sentence may remain on Parole supervision for life. However, the Parole Board may consider these Parolees for discharge after five (5) years if they have maintained satisfactory adjustment over the period of Parole supervision.

XV. **APPLICABILITY:**

This policy and administrative procedure is applicable to all Parole Districts and Parole Staff.
