ICI & IDOC Open Call Center at Indiana State Prison

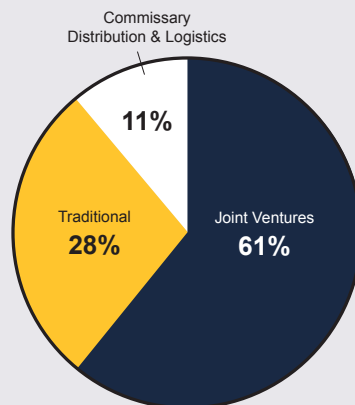

The Indiana Department of Correction began a new Private Sector Partnership and operation on June 3, 2019 at the Indiana State Prison. This new Indiana Correctional Industries operation is a call center which conducts Business-to-Business calls to private sector companies across the country. The offenders make sales calls for a telemarketing company that represents various services and businesses. This is a first private sector partnership at the Indiana State Prison.

The call center opened with five offenders and has the capacity to grow to 40 call center workers before the current space is maximized. The operation is expected to expand in size by mid-2020. The offender workers received two weeks of call center training prior to opening.

Offender Jobs Metric June 2019
