The success and growth of this income tax credit for private-sector businesses depends on a strong public and private-sector partnership. Helping those in need find and retain good jobs and gain on-the-job experience benefits all employers and increases America’s economic growth and productivity.

How to figure the WOTC

The WOTC has a max range of $2,400 to $9,600. It is based on qualified wages paid to the new hire for the first year of employment. Generally, qualified wages are capped at $6,000. The credit is 25% of qualified first year wages for those employed at least 120 hours and 40% for those employed 400 hours or more.

The Bottom Line:

- Employers make the hiring decision
- There is no limit to the number of new hires who can qualify the employer for the tax savings
- There is minimal paperwork needed to claim the WOTC
