CIF Graduated Two from Leadership Academy

Two staff members of the Correctional Industrial Facility (CIF) recently graduated from the Indiana Department of Correction's Leadership Academy at the Correctional Training Institute. Investigator John Poer and Administrative Assistant Laura Rasmussen were CIF’s most recent graduates.

The Leadership Academy is designed to develop staff members into potential future leaders with a focus on self-assessment. Trainers give the participants the tools to improve and innovate their personal leadership styles. The expectations are high for individuals attending this academy; being able to recognized areas to improve on and having that type of self-realization is one of the most important aspects of the academy.

Warden Wendy Knight commented, “I congratulate both John and Laura on their graduation. Leadership Academy is a challenging course to complete. I now look forward to seeing them both use the new skills they have acquired.”
