

Form 22 – Year-End (12/31) Filings of Bond Amortizations or Accruals

Report of Securities (Form 22) must be submitted by all companies that have a deposit on file under a Joint Custodial Agreement. Company should be reporting an amortization of premium or accrual of discount for each security on deposit with this Department, as of December 31 each year. **Bond amortizations or accruals are not required to be submitted throughout the year.**

If the company requests confirmation for auditors and/or Certificates of Deposit for year-end, neither confirmation nor certificates can be prepared until the bond amortizations or accruals have been received from the company and processed by this Department. **Certificates/confirmation cannot be provided unless the Report of Securities balances.**

The amortizations or accruals must be submitted to this office on the Report of Securities (Form 22) and **received no later than February 15th.**

Do **NOT** combine any other changes (deposits, maturities, withdrawals or replacements) with the year-end bond amortization. Please refer to the Report of Securities (Form 22) Instructions for these transactions. New deposits, maturities and withdrawals not completed prior to December 31 will be considered the next years' business and will be dated as of the date all necessary documents are received by this Department.

Form 22 and affidavit may be scanned and emailed. Forms **MUST** be submitted with signed signature (NOT stamped) of a company officer, keeping a copy for company file until a copy is signed and returned via email by this department.
