## Terminology

<table>
<thead>
<tr>
<th>Term</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Cost Sharing</strong></td>
<td>The costs a member is responsible for paying for health services when covered by health insurance.</td>
</tr>
<tr>
<td><strong>Deductible</strong></td>
<td>A form of cost sharing. A deductible is a dollar amount that is paid for initial medical costs before health insurance starts to pay. HIP 2.0 has a $2,500 deductible that is funded by a combination of state and member contributions.</td>
</tr>
<tr>
<td><strong>Copayment</strong></td>
<td>A form of cost sharing. Copayments or “copays” refer to a specific dollar amount that an individual will pay for a particular service, regardless of the total cost of the service accessed. The payment may be collected at the time of service or billed later. The HIP Basic plan requires copayments for most services from $4 for a doctors visit or prescription to $75 for a hospital stay.</td>
</tr>
<tr>
<td><strong>Federal Poverty Level (FPL)</strong></td>
<td>Determined annually by the federal government. The federal poverty level for 2014 is $973 per month for an individual and $1,988 per month for a family of four. 75% of the federal poverty level is equal to .75 x the federal poverty level for the family size.</td>
</tr>
<tr>
<td><strong>Affordable Care Act</strong></td>
<td>Federal law passed in 2010, requires most individuals to have health insurance or face a tax penalty.</td>
</tr>
<tr>
<td><strong>Federal Health Insurance Marketplace</strong></td>
<td>Individuals with income over the federal poverty level can purchase insurance plans through the federal government’s Health Insurance Marketplace. Those with incomes between 100% and 400% FPL may receive federal tax subsidies to help pay for coverage.</td>
</tr>
<tr>
<td><strong>Preventive Services</strong></td>
<td>Health care services recommended to identify health conditions so they can be treated before they become serious.</td>
</tr>

Healthy Indiana Plan (HIP) Fundamentals

✓ Covering Hoosiers since 2008
  - Nation’s first consumer-directed health care program for Medicaid recipients
  - Small demonstration program with limited enrollment

✓ Health coverage benefits modeled after an employer-sponsored health insurance plan
  - Coverage provided by one of three managed care entities (MCE)
  - Members may choose MCE: Anthem, MDwise, or MHS

✓ Pioneering the Personal Wellness and Responsibility (POWER) account
  - Each member has a health savings-like account called the POWER account that helps pay for initial medical expenses
  - Members and the State contribute to ensure there is enough money to cover initial health expenses
  - There are incentives to manage the account & penalties for members not making contributions
Healthy Indiana Plan (HIP): Introducing HIP 2.0

- Provide private market-like health insurance for healthy adults
- No limit on number of members
- Build on existing Healthy Indiana Plan

Changes in 2015
HIP 2.0: Personal Responsibility

✔ HIP member and the State make contributions to POWER account
  • Together, member and State contributions cover the first $2,500 of health care services received each year
  • Member portion of annual contribution is approximately 2% of household income per year, ranging from $1 to $100 per month
    o Annual contribution may be split between qualifying spouses
  • Members who do not make their monthly contribution face penalties
    o Income over 100% federal poverty level (FPL):
      ▪ Unless exempt, member subject to 6 month lockout period and may not receive HIP benefits*
    o Income less than or equal to 100% FPL:
      ▪ Reduced benefits
      ▪ Must make copayments for each health service
      ▪ Failure to pay the onetime monthly contribution may make receiving health care more expensive for the member

✔ For qualifying individuals, portion of unused POWER account funding can be rolled over
  • Receive recommended preventive care each year
    o Increase roll over for HIP Plus members if receive recommended preventive care
  • May use roll over amount to reduce monthly POWER account contribution in HIP Plus the following year

*EXCEPTIONS: Individuals who are 1) medically frail, 2) living in a domestic violence shelter, and/or 3) in a state-declared disaster area.

HIP 2.0 COST SHARING - REQUIRED CONTRIBUTIONS AND COPAYMENTS
POWER Account

✓ Unique feature of the Healthy Indiana Plan (HIP)
✓ Health savings-like account
  • Members receive monthly POWER account statements
  • Used to pay for the first $2,500 of service costs
✓ HIP Plus:
  • Members make monthly contributions to POWER account
    o Contribution amount is approximately 2% of income
    o Contribution ranges from $1 to $100 per month
  • Members exempt from most other cost sharing
✓ If members leave the program early they may still receive invoices for unpaid POWER account contributions from their health plan, depending on the cost of health care services received
✓ Rollover: All members may reduce future HIP Plus POWER account contributions
  • Must have remaining contribution in POWER account
  • Depending on plan: requirement or bonus for receiving preventive services
POWER Account

**HIP Plus POWER account**
- Pays for $2,500 deductible
- Member contributes
- May double rollover

**Year-End Account Balance**
- Unused member contribution rollover to offset next year’s required contribution
- Amount **doubled** if preventive services complete – up to 100% of contribution amount
- **Example**: Member has $100 of member contributions remaining in POWER account. This is credited to next year’s required contribution amount. Credit is doubled to $200 if preventive services were completed.

**HIP Basic POWER account**
- Pays for $2,500 deductible
- Cannot be used to pay HIP Basic copays
- Capped rollover option

**Year-End Account Balance**
- If preventative services completed, members can offset required contribution for HIP Plus by up to 50% the following year
- Members may not double their rollover as in HIP Plus
- **Example**: Member receives preventive services and has 40% of original account balance remaining at year end. May choose to move to HIP Plus the following year and receive a 40% discount on the required contribution.
HIP Plus: POWER Account Contribution (PAC)

- POWER account contributions are approximately 2% of member income
  - Minimum contribution is $1 per month
  - Maximum contribution is $100 per month
- Employers & not-for-profits may assist with contributions
  - Employers and not-for-profits may pay up to 100% of member PAC

*Amounts can be reduced by other Medicaid or CHIP premium costs

**To receive the split contribution for spouses, both spouses must be enrolled in HIP
Non-payment Penalties

✓ Members remain enrolled in HIP Plus as long as they make POWER account contributions (PACs) and are otherwise eligible.

✓ Penalties for members not making the PAC contribution:

- **≤100% FPL**
  - Moved from HIP Plus to HIP Basic
  - Copays for all services

- **>100% FPL**
  - Dis-enrolled from HIP*
  - Locked out for six months**

*EXCEPTION: Individuals who are medically frail.

**EXCEPTIONS: Individuals who are 1) medically frail, 2) living in a domestic violence shelter, and/or 3) in a state-declared disaster area. If an individual locked out of HIP becomes medically frail, he/she should report the change to his/her former health plan to possibly qualify to return to HIP early.
Exceptions to Non-payment Penalties

- Exceptions to penalties for select HIP Plus members with household income over 100% FPL who stop paying their POWER account contributions (PACs)
  - Native Americans
    - No required contributions
    - No copayments for using the emergency room for routine care
    - May opt out of managed care and into fee-for-service at any time, effective April 1, 2015
  - Medically frail

  - Individuals qualified for Transitional Medical Assistance
    - Move to HIP State Plan Basic
    - HIP State Plan Basic copayments apply
HIP Basic Plan: Cost Sharing

Copayments may not be more than the cost of services received.
HIP Plus Contributions Are Not Premiums

- Unlike premiums, members own their contributions.
- If members leave the program early with an unused balance, the portion of the unused balance they are entitled to is returned to them:
  - Members reporting a change in eligibility and leaving the program (e.g. move out of state) will retain 100% of their unused portion.
  - Members leaving for non-payment of the POWER account will retain 75% of their unused portion.
- If members leave the program early but incurred expenses, they may receive a bill from their health plan for their remaining portion of the health expenses.
- Members remaining in the program may be eligible to receive a rollover of their remaining contributions:
  - Rollover is applied to the required contribution for the following year.
5% of income limit

✓ Member cost sharing is subject to a 5% of income limit
  • Members are protected from paying more than 5% of their **quarterly** income toward HIP cost sharing requirements, including the total of all:
    o POWER account contributions (PAC)
    o Emergency Room copayments
    o HIP Basic copayments

✓ Members meeting their 5% of income limit on a quarterly basis will have cost sharing responsibilities eliminated for the remainder of the quarter
  • Individuals meeting the 5% limit and enrolled in HIP Plus will receive the minimum $1 minimum monthly contribution for the remainder of the quarter

**RECOMMENDATION:**
Members should keep record of their expenses and if they think they have met their 5% of income limit, they should contact their managed care entity (e.g. Anthem, MDwise, MHS)
