Pretest questions

- Are being “tried out” to assess if they are:
 - Too easy
 - Too difficult
- Do not count toward the candidate’s final score
- Are mixed in with scored items, so they are indistinguishable to the candidate
- For example, the Indiana Life Examination consists of:
 - General Knowledge section has 50 scored + 10 pretest items
 - State section has 30 scored + 5 pretest items

Pearson VUE styles and standards

- All 4-option multiple-choice items (questions)
 - Answer options are A, B, C, & D
- Completion vs question item stems
- No “trick” items
- All items have equal weighting
(except pretest – no weight)
- No penalty for guessing

Pearson VUE styles and standards

- Reviewed and updated major lines exams
 - Life
 - Health
 - Life/Health
 - Property/Casualty
 - Personal Lines
- Limited Lines exams left as is until we can convene a group of subject matter experts
 - Bail/Recovery
 - Surplus Lines
 - Public Adjuster
 - Navigator

Scoring and equating

- Exam forms are reliable:
 - Two candidates possessing equal ability levels should receive comparable exam scores regardless of:
 - Exam form
 - Test center location
 - Date of exam
- Passing score for Indiana is a 70 on a scale ranging from 0-100
- Diagnostics are provided on failing score reports
- Passing point is a “level of difficulty” established by a cut-score study at minimum level of competence
 - Standard setting conducted with Indiana subject matter experts in mid-April

Thank you!
