Mr. Edward J. Fujawa Deputy General Counsel Indiana Department of Insurance 311 W. Washington Street - Suite 103 Indianapolis, IN 46204-2787

Re: Median Physicians Rates

Dear Ed:

Enclosed please find our calculation of the median mature claims-made average collected rate at \$500,000/\$1,500,000 limits of liability by physicians professional liability ("PPL") specialty for the three largest writers of PPL coverage in Indiana. Exhibit 1 displays the average collected rates in effect for these writers as of July 1, 2025, in Lake and Porter counties, while Exhibit 2 displays the analogous rates in the remainder of Indiana. On Exhibit 3, we display a weighted average of these rates based upon the American Medical Association distribution of primary care physicians in Indiana by county. It is our understanding that these exhibits conform with the requirements of Indiana Code 34-18-5-2(f)(1).

Ed, please call with any questions.

Sincerely,

Eric J. Wunder, FCAS, MAAA Principal and Consulting Actuary

^{*} Average rate when only two rates are available

Sources:

ProAssurance July 1, 2024 rate filing (premium discount off-balance factor of 20% from page 56 of rate filing)
Medical Protective Company September 1, 2024 rate filing (adjusted manual rates to collected rates by using an average schedule credit of 14.7%, as given in its May 1, 2005 rate filing)

MMIC rate filling effective July 1, 2020 (manual rates equal collected rates since no average schedule credit was found)

The average schedule credit is the average percentage reduction in a company's collected rates relative to its manual rates.

For example, if a company's average schedule credit is 10%, then its collected rates are on average 90% of its manual rates.

^{*} Average rate when only two rates are available

Sources:

ProAssurance July 1, 2024 rate filing (premium discount off-balance factor of 20% from page 56 of rate filing)
Medical Protective Company September 1, 2024 rate filing (adjusted manual rates to collected rates by using an average schedule credit of 14.7%, as given in its May 1, 2005 rate filing)

MMIC rate filling effective July 1, 2020 (manual rates equal collected rates since no average schedule credit was found)

The average schedule credit is the average percentage reduction in a company's collected rates relative to its manual rates.

For example, if a company's average schedule credit is 10%, then its collected rates are on average 90% of its manual rates.
