Re: Median Physicians Rates

Dear Tina:

Enclosed please find our calculation of the median mature claims-made average collected rate at \$250,000/\$750,000 limits of liability by physicians professional liability (PPL) specialty for the three largest writers of PPL coverage in Indiana for which filed rates are available. Exhibit 1 displays the average collected rates in effect for these writers as of July 1, 2013 in Lake and Porter counties, while Exhibit 2 displays the analogous rates in the remainder of Indiana. On Exhibit 3, we display a weighted average of these rates based upon the American Medical Association distribution of non-federal physicians in Indiana by county. It is our understanding that these exhibits conform with the requirements of Indiana Code 34-18-5-2(f)(1).

Tina, please call with any questions.

Sincerely,

Chad C. Karls, FCAS, MAAA
Principal and Consulting Actuary

Susan J. Forray, FCAS, MAAA
Principal and Consulting Actuary

CCK/SJF/bas

Encl.

* Indiana Residual Malpractice Insurance Authority

** Average rate when only two rates are available

Sources:

ProAssurance rate filing effective November 1, 2009 (adjusted manual rates to collected rates by using an average schedule credit of 17.5%)

Medical Protective Company August 1, 2007 and May 1, 2006 rate filings (adjusted manual rates to collected rates by using an average schedule credit of 14.7%, as given in its May 1, 2005 rate filing)

IRMIA rate filing effective April 1, 2011 (adjusted manual rates to collected rates by using an assumed average schedule credit of -10.0% and adjusted from occurrence coverage to mature claims made coverage by using a mature claims made to occurrence conversion factor of 0.90)

The average schedule credit is the average percentage reduction in a company's collected rates relative to its manual rates.

For example, if a company's average schedule credit is 10%, then its collected rates are on average 90% of its manual rates.

** Average rate when only two rates are available

Sources:

ProAssurance rate filing effective November 1, 2009 (adjusted manual rates to collected rates by using an average schedule credit of 17.5%)

Medical Protective Company August 1, 2007 and May 1, 2006 rate filings (adjusted manual rates to collected rates by using an average schedule credit of 14.7%, as given in its May 1, 2005 rate filing)

IRMA rate filing effective April 1, 2011 (adjusted manual rates to collected rates by using an assumed average schedule credit of -10.0% and adjusted from occurrence coverage to mature claims made coverage by using a mature claims made to occurrence conversion factor of 0.90)

The average schedule credit is the average percentage reduction in a company's collected rates relative to its manual rates.

For example, if a company's average schedule credit is 10%, then its collected rates are on average 90% of its manual rates.

** Average rate when only two rates are available

Sources:

ProAssurance rate filing effective November 1, 2009 (adjusted manual rates to collected rates by using an average schedule credit of 17.5%)

Medical Protective Company August 1, 2007 and May 1, 2006 rate filings (adjusted manual rates to collected rates by using an average schedule credit of 14.7%, as given in its May 1, 2005 rate filing)

IRMIA rate filing effective April 1, 2011 (adjusted manual rates to collected rates by using an assumed average schedule credit of -10.0% and adjusted from occurrence coverage to mature claims made coverage by using a mature claims made to occurrence conversion factor of 0.90)

The average schedule credit is the average percentage reduction in a company's collected rates relative to its manual rates.

For example, if a company's average schedule credit is 10%, then its collected rates are on average 90% of its manual rates.
