Re: Environmental Protection Agency's finding of "no historic properties affected" for environmental cleanup activities at the Former Advance Plating Facility located at 1005 East Sumner Avenue (DHPA #31920)

Dear Mr. Jurevis:

Pursuant to Section 106 of the National Historic Preservation Act (54 U.S.C. § 306108) and 36 C.F.R. Part 800, the staff of the Indiana State Historic Preservation Officer ("Indiana SHPO") has conducted an analysis of the materials dated and received on March 21, 2024, for the above indicated project in Indianapolis, Perry Township, Marion County, Indiana.

We concur with the Environmental Protection Agency's March 21, 2024, finding that there are no historic buildings, structures, districts, objects, or archaeological resources within the area of potential effects that will be affected by the above indicated project.

This identification is subject to the following condition:

- The project activities remain within areas disturbed by previous construction.

If any prehistoric or historic archaeological artifacts or human remains are uncovered during construction, demolition, or earthmoving activities, state law (Indiana Code 14-21-1-27 and 29) requires that the discovery must be reported to the Department of Natural Resources within two (2) business days. In that event, please call (317) 232-1646. Be advised that adherence to Indiana Code 14-21-1-27 and 29 does not obviate the need to adhere to applicable federal statutes and regulations, including but not limited to 36 C.F.R. 800.

If you have questions about archaeological issues please contact Melody Pope at (317) 234-5254 or mpope@dnr.IN.gov. If you have questions about buildings or structures please contact Caitlin Lehman at (317) 232-0461 or clehman1@dnr.IN.gov.

Very truly yours,

Beth K. McCord
Deputy State Historic Preservation Officer
