

## **Why-fi Water Survey How-To Guide:**

1. Visit <https://www.surveygizmo.com/s3/2628634/Why-fiWater> on a computer, tablet or mobile device.

2. Supply information for all boxes on the survey. However, if you do not know an answer and cannot easily find the information, please note that instead of guessing. If you are able to provide an educated guess, please do so.
3. Notice the “Save and continue later” link at the top of the screen. This can be used if you need to step away from the survey for any reason. The information will be saved for the device that you used. When you return, all information that you previously entered will appear.
4. Although no individual questions are required, we strongly encourage you to complete all requested fields.

5. Please note, in order to be eligible for the laptop computer drawing, you must complete and submit BOTH the survey and the AWWA Water Audit.
6. If units are not specified, or you choose to report an answer with units different from those requested on the survey, please CLEARLY note this information.
7. Be sure to click Submit on the last page of the survey.
8. You will receive an email with proof of submission. Keep this for your records.
