MEMORANDUM

TO: Official Loan File

FROM: Tracey R. Trimpe

DATE: June 12, 2017

RE: Green Project Reserve (GPR) Business Case
Cromwell Wastewater Treatment Plant and Collection System Improvements Project
SRF Project DW 15 14 57 01

The Green Project Reserve components for the Town of Cromwell are CIPP Sewer Rehabilitation and Manhole Rehabilitation Non-Structural Lining.

The CIPP sewer and manhole rehabilitation project is projected to recover existing capacity in the sewer system by the reduction of infiltration/inflow (I/I). Town of Cromwell has demonstrated a cost effective solution to saving energy through reduced pumping and reduced treatment costs, due to the projected reduction of I/I. This project is considered to be a categorical project under EPA's Guidance for GPR **Energy Efficiency** category.

The total as-bid GPR cost is in the amount of \$115,419.80.

The Town of Cromwell closed on a SRF loan, in the estimated amount of \$1,750,000, on March 9, 2017.
