**INDIANA STATE
ETHICS COMMISSION**

Name of Agency: Indiana Management Performance Hub

Names of Recipients: Josh Martin, Executive Director
Burley Gwaltney, Chief Technology Officer

Brief Description: Complimentary Executive Pass for the 2024 Informatica World Conference

Date of Receipt: Conference Dates are May 20-23, 2024

Name of Donor: Informatica

Donor's Address: 2100 Seaport Blvd., Redwood City, CA 94063

Nature of Business Relationship with Agency: MPH and Informatica have a contract for Informatica to implement an Enterprise Data Catalog for the State of Indiana.

Statement on Why Acceptance is in the Public Interest: Waiver of the cost of the Executive Passes to Informatica World 2024 reduces government spending while providing a key opportunity for our agency's Executive Director and CTO to directly engage with Informatica's senior leadership. They will be able to attend executive-only sessions throughout the week that will give them access to both Informatica's senior leadership, as well as senior leadership for both private and public sector companies, which will be a benefit to the State. Specifically, for Informatica, attending at an executive level will allow these members of the MPH team to have a one-on-one meeting with Informatica's highest level of executive leaders to discuss MPH's overall partnership and utilization of their products. These discussions are in the best interest of the State as they provide a unique opportunity for MPH to negotiate future terms with Informatica and build rapport with their team. Further, this is a conference that MPH was already planning on sending several people to, thus a waiver will save taxpayer dollars on the cost of the conference, which is a base charge of \$1,195 per person for Public Sector.
