

**Notice to Potential Applicants for Vigo County Casino Owner's License**  
(last updated August 9, 2021)

The Indiana Gaming Commission (Commission) has received inquiries regarding the local development agreement (LDA) process and wishes to ensure all potential applicants are aware of the statutory guidance provided. IC 4-33-6.7-3 requires applications to include a *proposed* LDA. An applicant need not have an executed or finalized LDA for its proposal and application to be considered by the Commission. In addition, one factor the Commission is to consider is whether the applicant has a resolution of support from the local community. This factor is one of eight, *see* IC 4-33-6.7-4. The Commission does not utilize a weighted system for applications. IC 4-33-6.7 contemplates a process where multiple applications could be submitted for the Vigo County casino owner's license.
