**Re: Environmental Review Record, Section 106 Historic Review and State Historic Review Updates**

---

Most of the federal funding sources housed in or associated with the IHCDa Real Estate Department (CDBG, CDBG Disaster, HOME, HOME Tenant Based Rental Assistance, National Housing Trust Fund, Lead Hazard Reduction Demonstration Grant Program, Neighborhood Stabilization Program, and Continuum of Care) require environmental and historic reviews before federal funds can be utilized. Additionally, a historic review process is required for applicants and recipients of IHCDa's Development Fund. This notice is to inform applicants and recipients of edits to the Environmental Review Record (ERR) and Section 106 Historic Review documents for the federal funding sources and the Development Fund.

Several edits have been made throughout the Environmental Review Record Workbook, the User's Guide, and in the appendices. For a full summary of all edits, refer to the document titled "Updates to the ERR and Section 106 Documents" found [here](#).

Please contact Carmen Lethig at [clethig@ihcda.in.gov](mailto:clethig@ihcda.in.gov) for questions regarding these changes.
