Re: **2011 Tax Credit Rent and Income Limits**

The 2011 Multifamily Tax Subsidy Income Limits for the Rental Housing Tax Credit Program were released by HUD on May 31, 2011. The rent and income limits for each county in Indiana are now available in [Appendix E](#) of the 2011 Compliance Manual.

The new limits are effective on the publication date of May 31, 2011 and must be implemented no later than July 14, 2011 (45 days after date of publication).

NOTE: The information on implementing rent and income limits found in this notice supersedes the information in the 2011 Compliance Manual. The 2012 edition will be updated accordingly.

Background information

Income and rent limits are no longer based solely on the county in which a development is located. Instead, limits are project-specific based on the placed-in-service date. Remember that a “project” is defined by the election made by the owner on Form 8609 Part II Line 8b. If buildings within the same development are considered separate “projects” (i.e. if Line 8b of the 8609 is marked “no”), then each building may potentially have different sets of limits. Even if the multi-building project election is marked yes, it is important to note that separate phases are always considered different projects and are therefore likely to have different sets of limits.

The Housing and Economic Recovery Act of 2008 (HERA) created HERA special limits for projects defined as “HUD hold harmless impacted projects.” A project is eligible to use the HERA special limits if:

1. The county has HERA special limits published; and
2. The project placed-in-service on or before December 31, 2008.

Furthermore, HERA established an additional “hold-harmless” policy for all tax credit projects. Under this policy, a project’s income and rent limits will never decrease from one year to the next even if the county’s limits decrease. However, a project is never eligible to use a set of limits if it was not placed-in-service during the time those limits were in effect.

The next page includes a walkthrough on how to correctly implement income and rent limits.

Which income limits should I use?

To determine which set of income limits to use for a particular project, you must first define your project and then identify the first placed-in-service date for that project.

1. A project that placed-in-service on or before 12/31/08 will use the 2011 HERA Special limits. If the county does not have HERA Special Limits published, then the project will use the regular 2011 limits.
2. A project that placed-in-service between 1/1/09 and 5/13/10 will use the highest of the 2009, 2010, or 2011 limits for that county. This is because the project was in service during the effective term of the 2009, 2010, and 2011 limits and limits will never decrease once a project is in service.
3. A project that placed-in-service between 5/14/10 and 5/30/11 will use the highest of the 2010 or 2011 limits for that county. This is because the project was in service during the effective term of the 2010 and 2011 limits and limits will never decrease once a project is in service.
4. A project that placed-in-service on or after 5/31/11 will use the 2011 limits for that county. Since the project was not in service during the effective term of any older sets of limits, only the 2011 limits can apply.

Which rent limits should I use?

Determining the correct rent limit for a project involves one extra step, because every project has a gross rent floor. Per IRS guidance in Revenue Procedure 94-57, the gross rent floor is the rent limit in effect on the date that a project receives an initial allocation of credits from the agency (or for bond projects the date the project receives a reservation letter from the agency). At the election of the owner, the gross rent floor can instead be established at the date a project was placed-in-service.

To determine which set of rent limits to use for a particular project, follow the same steps as above and then compare that limit to the gross rent floor and use the higher of the two.

1. Determine the rent limit in effect by following steps 1-4 above.
2. Compare this rent limit to the limit established by the gross rent floor.
3. Use the higher of the two as the current rent limit.

Questions?

Questions about the 2011 limits or any other compliance related topics can be directed to:
