HOW WE CAN IMPROVE NEXT YEAR

- PIT Coordinators need to have a plan to communicate information coming from IHCDA to their communities, key players and, stakeholders
 - Point-In-Time date
 - Volunteer Training(s) and other webinars
 - Results
- Organizations that use HMIS/DV ClientTrack need to make sure their inventory for the month of January is accurate
 - Common data quality errors
 - Children enrolled by themselves when they should be enrolled with parents, Children exited on a different date than their parents, Duplicate clients, Clients not exited on the date they exited the program, etc.
 - Increase HMIS Participating agencies on the HIC
 - Focus on Chronic Homeless populations
 - Focus on working with 40 counties that do not conduct a count/provide data
