## **PART 1**

## **SCOPE OF THIS REQUEST**

### **1. PURPOSE OF THIS REQUEST FOR PROPOSALS (“RFP”)**

The Indiana Housing and Community Development Authority seeks to engage with a contractor to perform technical writing and develop a scope of work based on a Healthy Homes Assessment incorporating all local and State Building Code and/or manufacturers installation requirements as detailed in the Scope of Services section of this RFP.

### **2. ABOUT THE INDIANA HOUSING AND COMMUNITY DEVELOPMENT AUTHORITY**

**MISSION STATEMENT** The Indiana Housing and Community Development Authority (“IHCDA”) provides housing opportunities, promotes self-sufficiency, and strengthens communities. To accomplish this, IHCDA will:

- Pursue innovation in all programs and services;
- Provide thought leadership;
- Emphasize continued quality of services; and
- Continuously improve program management practices and partnership building.

#### **VISION**

At IHCDA, we believe that growing Indiana's economy starts at home. Everyone can agree that all Hoosiers should have the opportunity to live in safe, affordable, good-quality housing in economically stable communities. That's the heart of IHCDA's mission. Our charge is to help communities build upon their assets to create places with ready access to opportunities, goods, and services. We also promote, finance, and support a broad range of housing solutions, from temporary shelters to homeownership.

IHCDA's work is done in partnership with developers, lenders, investors, and nonprofit organizations that use our financing to serve low and moderate-income Hoosiers. We leverage government and private funds to invest in financially sound, well-designed projects that will benefit communities for many years to come. And our investments bear outstanding returns. The activities that we finance help families become more stable, put down roots, and climb the economic ladder. In turn, communities grow and prosper, broadening their tax base, creating new jobs, and maximizing local resources. IHCDA's work is truly a vehicle for economic growth, and it all starts at home.

#### **OVERVIEW (for more information visit <http://www.in.gov/ihcda/>)**

IHCDA was created in 1978 by the Indiana General Assembly and is a quasi-public financially self-sufficient statewide government agency. IHCDA's programs are successful in large part because of the growing network of partnerships IHCDA has established with local, state, and federal governments, for-profit businesses and not-for-profit organizations. For-profit partners include investment banks, mortgage lenders, commercial banks, corporate investment managers and syndicators, apartment developers, investors, homebuilders, and realtors. Not-for-profit partners include community development corporations, community action agencies, and not-for-profit developers.

### **3. SCOPE OF SERVICES**

Through the U.S. Department of Housing and Urban Development's Office of Lead Hazard Control and Healthy Homes, the Healthy Homes Production Grant Program (“HHP”) helps government create and implement programs to make homes safe, specifically by undertaking comprehensive programs to identify healthy homes hazards in eligible privately-owned rental or owner-occupied

housing.

In consultation with IHCD, the respondent selected pursuant to this RFP (the “selected respondent”) will be responsible for technical writing based on a Healthy Homes Assessment of residential properties, creating the scope of work contractors will bid upon. A scope of work for radon and/or lead-based paint hazards and other health and safety issues identified in the Healthy Homes Assessment must be professionally written based on local, State, and manufacturers requirements.

IHCD will have a preference of the Community Action Agency in the defined Weatherization Service Areas. IHCD will select at least one other respondent to cover any Weatherization Service Area in which there is no response or qualified response from a Community Action Agency.

The technical report must be in accordance with industry standards and the following requirements:

#### Scope of Work Technical Writing

- Each activity must be separated in the scope of work to indicate which of the 29 Healthy Homes Hazards the repair is applicable to.
- The scope of work must incorporate all local and State of Indiana building code requirements to include any manufacturers installation requirements.
- There must be a line-item cost estimate for each hazard control activity and/or repair.
- The scope of work and any required reports must be completed and submitted to the IHCD within two weeks of receipt of each Healthy Homes Assessment.
- Provide technical support by answering questions and resolving problems when questions and/or clarifications are requested by IHCD.
