WHEREAS, the timely exchange of intelligence and critical law enforcement information among local, state and federal agencies remains one of the most serious challenges affecting homeland security;

WHEREAS, in 2006, Governor Daniels created the Indiana Intelligence Fusion Center (Fusion Center) through Executive Order 06-04 to enhance the process of analyzing information by creating a structure that local, state and federal agencies can use to share information and combine their efforts more effectively;

WHEREAS, the Indiana General Assembly established the Fusion Center under Ind. Code § 10-11-9 “to collect; integrate; evaluate; analyze; disseminate; and maintain criminal intelligence information to support governmental agencies and private organizations in detecting, preventing, investigating and responding to criminal and terrorist activity in compliance with applicable state and federal law;”

WHEREAS, the Fusion Center locates representatives of local, state, and federal agencies and private organizations in the same facility to share information and to facilitate joint efforts to prevent and solve crimes and to better protect the public;

WHEREAS, the future of the Fusion Center is to build upon the current structure adding depth and reach in an effort to reduce duplicative governmental functions and strengthen capacity and to serve as the “all crimes-all hazards” approach to all encompassing public safety and homeland security;

WHEREAS, the ongoing operations, continued development and strengthening of the Fusion Center will continue to enable our federal law enforcement, intelligence and other critical mission partners at the national level to distribute criminal information and intelligence to one place in Indiana with the certain knowledge that it will be promptly disseminated to those agencies located in Indiana who need the information to better protect the public; and

WHEREAS, consistent with national best practice trends for information sharing, collaboration and coordination of multilevel government organizations with common goals for the safety and wellbeing of the citizens of Indiana and in the interest of national homeland security priorities, the Fusion Center will continue to operate in accordance with Ind.
