COURSE DESCRIPTION

This course provides a forum to discuss strategic and executive-level issues related to all-hazard disaster preparedness, to share proven strategies and best practices, and to enhance coordination among officials responsible for emergency response and recovery from a disaster. This workshop integrates a multimedia scenario and vignettes that highlight key issues and facilitates executive-level discussion of the United States' National Strategy for Homeland Security. Additionally, the forum provides an opportunity to apply lessons learned from past local and national all-hazards disasters.

This workshop provides a unique opportunity for local or regional executives to share strategies and coordinate plans for emergency preparedness and response. This workshop is an effective process for discussing executive-level issues with leaders from the agencies involved in all levels of the emergency management structure.
